

GROWTH, HOUSING & DEVELOPMENT

Public Information Session

Over the next
15 - 20 years
Wellington North's
population is
expected to grow
BY OVER 7,000
residents and
local employment
by 2,370 jobs.

*This **growth is important** to Wellington North's economy as many of our businesses continue to be challenged to recruit workers.*

ARE YOU INTERESTED in learning more about this growth, the impact it will have on our community and how businesses and the community can embrace it, to the betterment of our community, and municipal economy?

BASED ON THE SUCCESS of our April 13th session (70 attendees) we are holding a second Public Meeting in order to continue to engage as many people as possible in this discussion.

If so the Township of Wellington North is hosting a Growth, Development and Housing Public Information Meeting

Thursday, May 26th
Mount Forest &
District Sports Complex
Community Hall

Informal networking with staff and council starts at 5:30pm with the Mayor kicking off the formal discussion at 6:00pm. *Open to everyone and registration is not required to attend.*
