Please note – Section 34 (12) of the Planning Act.

(12) Information. – At a meeting under subsection (12), the council shall ensure that information is made available to the public regarding the power of the Municipal Board under subsection (14.1) to dismiss an appeal if an appellant has not provided the council with oral submissions at a public meeting or written submissions before a By-law is passed.

1. Notice for this public meeting was sent to required agencies and property owners within 120 m as well as posted on the property on November 20<sup>th</sup>, 2009.

2. Presentations by:

- Mark Van Patter, Senior Planner

Mr. Van Patter reviewed his correspondence dated December 8, 2009. The rezoning is required as a condition of provisional consent (B133/09) by the Wellington County Land Division Committee. The Planning and Development Department do not have concerns with implementing this decision. Both the Provincial Policy Statement and Wellington County Official Plan provide for surplus farm dwelling severances, provided the retained lands are rezoned to prohibit future residential dwellings. The intention of this policy is to allow farmers to reduce their costs of acquiring additional farm parcels, where the impact on existing and future farm operations can be kept to a minimum.

3. Review of Correspondence received by the Township:

- Grand River Conservation Authority  
- No Objections

4. The by-law will be considered at the Regular Council Meeting following the Public Meetings. Mayor Broomhead asked those wishing to receive further notices regarding this application to make their request in writing.

**F. DELEGATIONS**

1. a) Bill Nelson, Frank Cowan Company  
Re: 2010 Municipal Insurance Program

Mr. Nelson presented the 2010 Municipal Insurance Program. This year there is a substantial increase over previous years. The Township is insuring a higher property value than it was a few years ago. There have been a number of claims in the past few years and there are some large claims sitting in reserves. We have seen an increase in the value of damage awards and judiciary costs. Previously lawyers were paid on a fee for service basis and now they are paid contingency fees, which can be 20% of the claim. Class action law suits are coming into play. Those found even 1% responsible can end up having to pay the entire amount of the award if other responsible parties do not have the resources to pay. This is often the case when a municipality is involved. Automobile insurance rates will be increasing greatly; although the Province is trying to reduce the amount of increases, but that will take time. It is unclear at this time how the HST being implemented in July 2010 will affect insurance. Mr. Nelson commented that he is very impressed with the Township staff's efforts to prevent losses. Staff is not careless and watches out for potential hazards. Risk management is taken very seriously.

John Jeffery, Treasurer commented on a report regarding joint severability presented this fall and recommendations to AMO and the Province.

**BUSINESS ARISING FROM MINUTES:**

Mayor Broomhead inquired about the agreement with Cimcoe. He was advised by Mark that they had a one year warranty and it was up in September. Mayor Broomhead wants an audit regarding the agreement with Cimcoe. Mark is to contact Cimcoe and have someone meet with us. Linda is to look up minutes of past building committee meetings.

**Non Resident User Fees** - There was a response from only four groups regarding user fees, three from Mount Forest and one from Arthur. There is to be a push put on the groups that have not replied. It was decided someone is to talk to Minto about how many of our people participate in their facilities as 20 from Minto play hockey at our Sports Complex.

**Spring and Summer Ice** - Requests were sent out to all the ice users in Mount Forest and Arthur asking if they would like Spring and Summer Ice. Terry Whiteside from Quick Feet Triple A Hockey would like to use the ice for 6 teams out of Durham. It was decided to offer them ice up to the 17<sup>th</sup> of April as the Home & Garden Show will be the end of April. Mark is to contact the Triple A contact. Linda will contact the boys that want to run the hockey camp again in August and tell them it is a go. The mayor suggested Linda should contact Alex Perrie to see if his family wants to use

the complex to practice. Tom Bowden will bring in names of other groups to contact. The rate of summer ice was discussed and the following motions resulted:

**Lion Roy Grant Pool** - Mark explained that McLellan's used a special camera at the pool. The main pipe at the bottom is cracked, plus other cracks and deficiencies in the skimmers. The camera was too small to get into the skimmers. Mark was directed to get two pool companies to quote on fixing the main drain.

## REPORT

**TO:** Council

**FROM:** John W Jeffery – Treasurer

**DATE:** January 11, 2010

**RE:** Ontario Municipal Partnership Fund (OMPF)

---

Prior to Christmas the Township received notice from the Ministry of Finance of the funding the Township will receive in 2010 from the Ontario Municipal Partnership Fund (OMPF).

The amount of funding will be \$1,028,000 which is a reduction of \$257,000 from the 2009 funding of \$1,285,000. The Township has received the amount of \$1,285,000 each year since the introduction of the OMPF in 2005 to replace the former funding program under the Community Reinvestment Fund (CRF).

There are different components of the OMPF each of which is determined by a specific formula. However, since its introduction the province assured each municipality that they would not receive less each year than what was received in the prior year despite whatever amount would be calculated given the respective formulae. Beginning in 2010 this assurance is being phased out.

The impact of this reduction will be assessed over the course of the 2010 budget discussions. However, this revenue reduction, by itself, will have an impact of 5% on the 2010 tax rate.

<b>APPLICATION:</b>	B26/10
<b>LOCATION:</b>	Part Lot 28, Concession 4 TOWNSHIP OF WELLINGTON NORTH (West Garafraxa)
<b>APPLICANT/OWNER:</b>	Debra Schill

**PLANNING OPINION:** This proposal would sever an irregular-shaped 2.5 ha (6.1 ac) parcel with an existing house, barn and sheds in a Prime Agricultural area. A 58.2 ha (143.9 ac) vacant agricultural parcel would be retained.

This application to sever a surplus farm dwelling is consistent with Provincial Policy. While the application meets the criteria set out in the Official Plan for this type of severance, we have concerns with how the extensive farm infrastructure (barn, silos and sheds) will be used once it is no longer part of the farm. The buildings appear to be in good condition, but are well beyond the size which would normally be allowed for a hobby barn or other accessory uses to the residential use of the property. These matters will need to be addressed through the rezoning process.

We would recommend that the following matters be addressed as conditions of approval:

- a) That the retained parcel is rezoned to prohibit new residential dwellings and that any zoning compliance issues with the existing farm buildings on the severed parcel are also addressed to the satisfaction of the local municipality and County of Wellington Planning and Development Department; and
- b) That safe driveway access can be provided for the retained parcel to the satisfaction of the local road authority.

**PROVINCIAL POLICY STATEMENT (PPS):** The creation of new residential lots in prime agricultural areas shall not be permitted, except in accordance with policy 2.3.4.1(c). According to this policy, lot creation in prime agricultural areas may be permitted for a residence surplus to a farming operation as a result of farm consolidation, provided that there is a restriction against new residential dwellings on any vacant farmland parcel created by severance. Farm consolidation is defined as the acquisition of additional farm parcels to be operated as one farm operation.

Minimum Distance Separation 1 (MDS1) is not applicable to the surrounding livestock facilities. Under Guideline 8, MDS1 is not applied to a proposed lot with an existing dwelling when that dwelling is already located on a parcel of land separate from the subject livestock facility. In this case MDS1 would only apply to livestock facilities on the retained lands. As there are no livestock facilities on the retained lands, we have no MDS1 concerns with this application.

**WELLINGTON COUNTY OFFICIAL PLAN:** The subject lands are designated PRIME AGRICULTURAL. According to Section 10.3.4, a severance may be considered for an existing residence that is surplus to a farming operation as a result of farm consolidation, provided that:

- a) the remaining vacant farmland is large enough to function as a significant part of the overall farm unit; and
- b) the result of removing the surplus dwelling from the farm does not render the remaining farmlands difficult or inefficient to farm; and
- c) the amount of good farmland retained with the surplus house is kept to a minimum size needed for residential purposes, taking into consideration environmental and topographic features; and
- d) the surplus residence is habitable and is not expected to be demolished by a future owner; and
- e) the Minimum Distance Separation formula will be met; and
- f) the vacant parcel of farmland is rezoned to prohibit a residential use.

"The intention of this policy is to allow farmers to reduce their costs of acquiring additional farm parcels, where the impact on existing and future farm operations can be kept to a minimum."

In terms of the overall farm, in a letter of December 9, 2009 (attached), the applicant confirmed that they operate a multi-location cash crop farm operation in excess of 10,000 acres.

**LOCAL ZONING BY-LAW:** The subject lands are zoned Agricultural (A). The retained lot would meet the minimum lot area and frontage requirements of Section 8.2 and the severed lot would meet the minimum lot area and frontage requirements of Section 8.5. Rezoning would be required to address the following:

- Prohibit a residential use on the retained lands in accordance with Section 10.3.4(f) of the Official Plan; and
- As it currently stands, farming is the main use of the existing parcel. The residential dwelling is considered accessory to the farm and the agricultural buildings are part of the main use. As a result of the severance, the residential dwelling would be considered the main use and the farm buildings would be accessory. The existing farm buildings would exceed the height (Section 6.1.3), allowable ground floor area of 1,000 sq. ft. (Section 6.12.4ii) and allowable ground floor area for a hobby barn (Section 8.3.1).

**SITE VISIT INFORMATION:** The subject property was visited and photographed on December 21, 2009. Notice Cards were posted and the survey sketch appears to meet the application requirements.

## **EXPLANATORY NOTE**

### **BY-LAW NUMBER 4-10**

**THE LOCATION OF THE SUBJECT PROPERTY** is in Lot 22, Concession B, former Peel Township with a civic address of 7598 Hwy 6. The property subject to the zoning amendment has frontage on Hwy 6 and Wellington Road 12. The majority of the lands are farmed. There is a residence and contractors business located on the residential portion of the parcel.

**THE PURPOSE AND EFFECT** of the zone amendment is to rezone the subject lands to restrict any residential development on the retained portion of the property; remove the site specific zoning on the retained lands, while retaining the site specific exemption on the severed parcel; and, restrict the keeping of livestock on the severed parcel, in order to comply with Minimum Distance Separation (MDS) requirements. This amendment will fulfill a condition of approval for consent application B122/09 that was granted provisional consent on October 14, 2009. The consent severed the farm dwelling from the agricultural parcel under the surplus farm dwelling policies.
