C.A.O./CLERK

MAYOR

February 25, 2009

Lori Heinbuch, CAO/Clerk
Township of Wellington North
P.O. Box 125, 7490 Sideroad 7 W
Kenilworth, ON N0G 2E0

Dear Ms. Heinbuch:

**Re: Final Planning Comments
Schneider Power Inc. (SPI) - Wind Energy Proposal
Zoning By-law Amendment Application**

PLANNING OPINION

Earlier detailed comments were provided in my letter of October 29, 2008. All issues raised in that letter have now been addressed. I am satisfied that the likely impacts have been determined and that they are either minor or will be mitigated. I no longer have any concerns with the proposal.

TURBINE HEIGHT CHANGE

At the time of my last letter, it was my understanding that the turbine height was to be increased from 119 metres to 149 metres, and I had some concerns about the possible effect on impacts. However, the height is now 121.5 metres, and I no longer have concerns in this regard.

PLANNERS REVIEW OF SUPPORTING BACKGROUND STUDIES

I have reviewed the studies and am satisfied that any of the impact can and will be satisfactorily mitigated.

DRAFT ZONING BY-LAW

I have attached a revised version of the draft zoning amendment for Council's consideration. I have addressed comments raised by the Town's Solicitor, the Building Inspector as well as Sarah Raetsen of Schneider Power.

SITE PLAN CONTROL BY-LAW

If Council gives approval to the by-law, I would recommend a meeting with the Township's Solicitor and Building Inspector to discuss site plan control details.

Sincerely,

Mark Van Patter
Senior Planner

C: Sarah Raetsen by email only

Describe your Drinking-Water System

The Mount Forest Water Supply System is located in the Township of Wellington North. This municipal water supply system serving the community of Mount Forest consists of four groundwater wells, four pump houses, and a standpipe and water distribution system. Each well is equipped with one well pump, discharge piping and disinfection equipment. Well #3 is also equipped with a back-up diesel generator and a booster pump.

The system's supply for fire protection, peak demands and emergencies, is stored within a 2080 m³ standpipe. It services a permanent population of approximately 4,500 with 2,065 service connections comprised of approximately 1,841 residential premises and 224 ICI premises.

The well pumps and sodium hypochlorite metering pumps are started and stopped based on the standpipe water level. Once the low water level in the tank has been reached, the pump stations are called upon to supply the distribution system with the excess filling the standpipe to the normal top water level. This system is a demand/storage system. When the level drops below the lead pump start level, the lead well pump will start. If the level continues to drop, the first, second and third lag well pumps will be started respectively. All pumps stop at the normal top water level until the water level drops in the standpipe and the pumps are required again. Whenever all pumps have stopped; the pump sequence changes. Pumps removed from service are automatically skipped.

Describe your Drinking-Water System

The Arthur Well Water Supply System is located in the Township of Wellington North. This municipal water supply system serves the community of Arthur. It is comprised of three drilled wells, two pump houses, two elevated storage tanks and a distribution network. The Township uses 12% sodium hypochlorite for disinfection and calciquest for iron and manganese sequestering. It services a permanent population of approximately 2,700, comprised of approximately 779 residential premises and 98 ICI premises.

The well pumps and associated metering pumps are started and stopped based on the water level in elevated tank number one. Once the low water level in the tank has been reached the well pumps are called upon to supply the distribution system with the excess filling the tank to the normal level well level. This is a demand/storage system. All pumps stop at the normal top water level until the water level drops in the tank and the pumps are required again.

The Township of Wellington North's licensed operators regularly test the water within its overall system including the raw water at the well source, after treatment and within the distribution system of approximately 16.81 kilometers of water main.

Dear Mayor Broomhead and Members of Council:

Since we last corresponded with you, Egg Farmers of Ontario's motion has been adopted by 78 municipalities across Ontario. In Wellington County the Town of Minto has passed our motion.

You may be interested to know the Town of Pelham (Niagara), who does not purchase eggs at its municipally run institutions, amended the resolution to read, *"Therefore it be resolved that the Town of Pelham encourages the Regional Municipality of Niagara to identify its current procurement of eggs, produced by Ontario egg farmers, as a preferred local sustainable procurement practice."*

Pelham Council like many others supports the idea that food produced locally is a benefit to all communities across the province.

We hope that Pelham's example will inspire you to become part of the movement to buy local and support creating healthy and sustainable communities in Ontario by adopting EFO's motion and supporting it at Wellington County Council.

If you have any questions about the attached motion or about egg farming in general we would welcome the opportunity to provide you with more information. Please feel free to contact me at 905-858-9790 for more information. We will be contacting your office in the coming weeks to request an opportunity to meet with you to discuss this in more detail.

Sincerely,

Harry Pelissero
General Manager
Egg Farmers of Ontario

MOTION

WHEREAS the Township of Wellington North supports practices that contribute to the creation of a sustainable environment;

AND WHEREAS Ontario egg farmers currently provide our community with fresh, locally produced Grade A eggs which travel from farm to table in 4 to 7 days;

AND WHEREAS Ontario egg farmers take pride in caring for their hens while offering consumers a variety of egg choice;

THEREFORE BE IT RESOLVED THAT the current procurement practice of eggs by the Township of Wellington North, produced by Ontario egg farmers, be identified as the preferred local sustainable procurement practice.

BE IT FURTHER RESOLVED THAT the purchase of all Ontario eggs contributes to the creation of a sustainable environment in which consumers and farmers benefit.

SUBJECT: Mount Forest Lions Club Application for Progressive Bingo License

Dear Lori:

The Mount Forest Lions Club has applied to the Alcohol and Gaming Commission of Ontario for a Progressive Bingo Game License and a copy of our submission is enclosed for your information. Today I received an email from the AGCO, copy also enclosed, asking us to provide them with a Letter of Support from the Township of Wellington North.

As you are aware, and as indicated in our application, the Lions Club have been running a weekly bingo for over 30 years with all proceeds going to support local community activities. During a recent customer service survey of our Bingo patrons over 85% of them supported our intent to include a progressive game, where the jackpot would be carried over each night if not won.

In order to comply with the AGCO I would appreciate it if you could provide us with a brief letter indicating that the Township of Wellington North supports our application.

Should you have any questions please do not hesitate to contact me at 519-323-3188 or by email at dalevsmall@hotmail.com. On behalf of the Mount Forest Lions Club I would like to thank you for your ongoing support.

Yours truly,

SUBJECT: Application for a Progressive Bingo License

Dear AGCO:

Please find enclosed our application for a progressive Bingo License. For over 30 years the Mount Forest Lions Club has held a weekly bingo in Mount Forest with all proceeds going to support local community activities. For your information a copy of our current Bingo License is enclosed.

At the present time we play a Loonie Bin Ball game where the proceeds are paid out each night if a bingo is not called on a certain number. This number is drawn at the beginning of the night and advised to our customers. If the prize is not won we play a Bin Ball game during the final jackpot and pay-out the proceeds each night. This application for a progressive license is so we can carry-over this bin-ball jackpot over each night until it is won or until the jackpot reaches \$5,000.00 at which point it will be paid out.

For your information a copy of our Bingo Program is enclosed which has been updated to reflect the Progressive game. As you will see, in the twelve game, we will play a special function if the bin-ball has not been paid out that night.

We trust you will find our application to be in order, however should you have any questions, please feel free to contact our Bingo Chairman, Dale Small at 519-323-3188 or by email at dalevsmall@hotmail.com. Thank you.

Yours truly,
