**THE CORPORATION OF THE
TOWNSHIP OF WELLINGTON NORTH**

REGULAR MEETING OF COUNCIL

Monday, April 26, 2010

7:00 p.m.

Members Present:

**Mayor: Mike Broomhead
Councillors: Bob Mason
John Matusinec
Dan Yake**

Absent:

Councillor: Ross Chaulk

**Also Present: Chief Administrative Officer/Clerk: Lorraine Heinbuch
Executive Assistant: Cathy Conrad
Treasurer: John Jeffery
Manager of Public Works: Gary Williamson**

The meeting was held in the Municipal Office Council Chambers, Kenilworth.

A. CALLING THE MEETING TO ORDER

Mayor Broomhead called the meeting to order.

B. PASSING AND ACCEPTANCE OF AGENDA

**Moved by: Councillor Mason
Seconded by: Councillor Matusinec**

THAT the Agenda for the April 26, 2010 Regular Meeting of Council be accepted and passed.

Resolution Number: 1

Carried

**C. DECLARATION OF PECUNIARY INTEREST AND GENERAL NATURE
THEREOF**

None

**THE CORPORATION OF THE
TOWNSHIP OF WELLINGTON NORTH**

REGULAR MEETING OF COUNCIL

Monday, April 26, 2010

Page Two

D. MINUTES

1. Public Meeting, April 19, 2010
2. Regular Council Meeting, April 19, 2010

Moved by: Councillor Matusinec

Seconded by: Councillor Yake

THAT the minutes of the Public Meeting and the Regular Meeting of Council held on April 19, 2010 be adopted as circulated.

Resolution Number: 2

Carried

E. BUSINESS ARISING FROM MINUTES

None.

F. DELEGATIONS, DEPUTATIONS, PETITIONS

1. Donna McFarlane, Victoria Cross Public School, Grade 8 Students
Re: Presentations Regarding:
 - By-law Forbidding Bicycle Riding on Main Street Sidewalks
 - Audible Signals on Stoplights.

Grade 8 students, James Cooper, Shivangi Patel, Danielle Radmacher, Shawn Kirk, and Clemens Snoeijer, from Victoria Cross Public School appeared before Council with presentations regarding a by-law to ban bicycles from the sidewalks on the Main Streets and to request audible signals on stoplights. Banning bicycles from the sidewalks would make it safer for the elderly, visually impaired and anyone exiting a store. The audible signals would benefit the visually impaired and give them back some independence. It was also suggested that the step at the curb be painted yellow to aid the visually impaired.

Council thanked the students for their presentation. Following discussion regarding costs and enforcement Council agreed to have the Works Committee discuss the possibility of installing audible signals. A letter will be sent to the other municipalities in Wellington County regarding a by-law to ban bicycles and skateboards from the Main Street sidewalks.

TOWNSHIP OF WELLINGTON NORTH**

REGULAR MEETING OF COUNCIL

Monday, April 26, 2010

Page Three

**G. STANDING COMMITTEE, STAFF REPORTS, MINUTES AND
RECOMMENDATIONS**

1. Building/Property Committee
 - Minutes, April 7, 2010

**Moved by: Councillor Matusinec
Seconded by: Councillor Mason**

THAT the Council of the Corporation of the Township of Wellington North receive the minutes of the Building/Property Committee meeting held on April 7, 2010.

Resolution Number: 3

Carried

**Moved by: Councillor Yake
Seconded by: Councillor Matusinec**

THAT the Council of the Corporation of the Township of Wellington North hire an Ontario Land Surveyor to provide a real property report of 146 George Street, Arthur (former Arthur Municipal Office) as recommended by the Building/Property Committee.

Resolution Number: 4

Carried

**Moved by: Councillor Mason
Seconded by: Councillor Yake**

THAT the Council of the Corporation of the Township of Wellington North forward the Draft Anti-Fortification of Land By-law and Draft Enforcement Protocol to the Township Solicitor for review and comments as recommended by the Building/Property Committee.

Resolution Number: 5

Carried

**G. STANDING COMMITTEE, STAFF REPORTS, MINUTES AND
RECOMMENDATIONS** (continued)

1. Building/Property Committee
 - Minutes, April 7, 2010 (continued)

**Moved by: Councillor Matusinec
Seconded by: Councillor Yake**

THAT the Council of the Corporation of the Township of Wellington North authorize the purchase and installation as per the quote provided by Plumes Color Your World dated January 26, 2010 for curtains for the stage in the Arthur Seniors Hall pending fabric approval by the Arthur Seniors, as recommended by the Building/Property Committee.

Resolution Number: 6

Carried

2. Works Committee
 - Minutes, April 20, 2010

**Moved by: Councillor Matusinec
Seconded by: Councillor Mason**

THAT the Council of the Corporation of the Township of Wellington North receive the minutes of the Works Committee meeting held on April 20, 2010.

Resolution Number: 7

Carried

**Moved by: Councillor Yake
Seconded by: Councillor Matusinec**

THAT the Council of the Corporation of the Township of Wellington North award the Paving Tender for Sideroad #5 West to The Murray Group at the quoted price of \$70,942.95 plus applicable taxes as recommended by the Works Committee.

Resolution Number: 8

Carried

Draft Proposed Assessment Report

***Presentation to Council
Municipality of Wellington North
May 3, 2010***

CLEAN WATER ACT, 2006

The purpose of this Act is to protect existing and future sources of drinking water from contamination and over use.

Four vulnerable areas under Clean Water Act:

Wellhead protection areas

Surface water intake protection zones

Significant groundwater recharge areas

Highly vulnerable aquifers

When will Source Protection take place?

- 2007 - Chair Mike Traynor appointed August 17/07
Source Protection Committee established**
- 2008 - Prepare Terms of Reference**
- 2009 - Submit Terms of Reference
Begin Draft Proposed Assessment Report**
- 2010 - Submit Proposed Assessment Report by
Sept. 30/10**
- 2011 - Preparation of Draft Source Protection Plan
including policies on activities and threats**
- 2012 - Submit Proposed Source Protection Plan by
Aug 20/12**
- 2013+ Implementation of Source Protection Plan;
Monitoring and Reporting; Review Plan**

Assessment Report

Six step process

1. **Complete Technical Work**
(April 2010)
2. **Complete Draft Proposed Assessment Report**
(April)
3. **Draft Proposed Assessment Report Consultation**
(May, early June)
4. **Proposed Assessment Report Preparation - SPC considers comments**
(June)
5. **Proposed Assessment Report Consultation** *(July)*
6. **Proposed Assessment Report submission**
(September)

TWP. OF WELLINGTON NORTH

Ms. Lorraine Heinbuch
Chief Administrative Officer/Clerk
Township of Wellington North
7490 Sideroad 7 W.
Kenilworth, ON N0G 2E0

RE: Dealing with Human-Coyote Conflicts in Your Municipality

Dear Ms. Heinbuch:

Coyotes are a natural part of healthy ecosystems and Ontario's rich biodiversity. It is not uncommon to find coyotes in urban areas. In most instances, they along with other wildlife, don't present a problem unless the animals start to link people with sources of food – garbage, pet food, or someone feeding wildlife.

The Ministry of Natural Resources remains committed to working with municipalities and the public to reduce the number of human-wildlife conflicts and the risks associated with these wildlife encounters. Everyone needs to take responsibility for their own actions when it comes to the management of wildlife.

The Ministry does not provide direct animal control services but does provide information and the authorizations for the control of problem animals where required.

This letter is intended to provide you with information to assist you in making decisions and/or taking action with respect to protection of property related to coyote conflicts that may occur in your municipality. I must emphasize the conflict aspect in the consideration of taking action against coyotes or any other wildlife. The mere presence of coyotes does not provide justification for taking action against these animals. The policies and management options in place under the *Fish and Wildlife Conservation Act, 1997 (FWCA)*, and its regulations, allow municipalities to respond to these issues.

Options for your consideration when dealing with coyotes in your municipality are outlined below. The Fact Sheet "Coyotes in the Community" is also attached for your use.

On Municipal Property:

As a landowner, a municipality has the same protection of property provisions under the *FWCA* as all other landowners. Specifically:

A municipality or property owner (any person who owns or leases the property) can take action on their land if a coyote is damaging or about to damage their property by:

1. Personally harassing or killing the problem coyote; or
2. Using an agent (discussed below) to harass or kill a problem coyote on their behalf.

The following people are allowed to act as agents to protect property from problem wildlife (known as class agents):

- Licensed trappers;
- Employees or agents of a member of the Ontario Society for the Prevention of Cruelty to Animals (OSPCA);
- Members of the landowner's immediate family;
- Persons whose main business is dealing with removing problem wildlife (requires authorization from MNR to kill);
- Employees or agents of a municipality whose responsibilities relate to wildlife control.

A landowner or municipality may also invite a licensed hunter or trapper on their land to hunt or trap coyotes on their property during the open season. Generally, open hunting and trapping seasons are year round in much of the coyote range in southern Ontario. You can learn more about coyote seasons in your area through MNR's [2009-10 Hunting Regulations Summary](#), found online at www.mnr.gov.on.ca/en/Business/FW/Publication. Hunting or trapping activities may be limited by municipal no discharge of firearm by-laws or use of traps by-laws.

On Private Property – to assist municipal residents

1. A municipality can assist a landowner with the control of coyotes on private property with the assistance of a municipal employee whose responsibilities relate to wildlife control. The municipal employee is permitted to harass or kill the coyote on private land should the private landowner wish them to. Some municipalities may not provide this service.
2. Where a municipality wishes to compensate hunters or trappers for removing coyotes that are damaging livestock on land other than municipal property, the municipality and the hunter or trapper require authorization under *Section 11* of the *FWCA*. Individuals authorized under *Section 11* are not agents under the protection of property provisions but are authorized to hunt or trap for hire or gain. The purpose of this authorization is to facilitate municipalities who wish to compensate designated hunters or trappers who have authorization to hunt or trap coyotes that are causing localized problems. Its purpose is to target the animals causing the problem, and not the general coyote population over a large area.

The municipality and local District Manager must agree on geographic area and time period for the control activities before the letter of authority is issued. Hunters or trappers are also required to have individual landowner permission to access private property.

"Bounties" or "culls" are not effective methods of dealing with coyote conflicts. Most coyotes removed under these programs are young, inexperienced, non-breeding animals, and not the

breeding adults. Programs like bounties don't target the specific animals causing the conflict or problem in specific areas, but rather indiscriminately target all coyotes across a broad region.

Research also demonstrates that relocating coyotes is not a long-term solution. Coyotes are highly mobile and territorial animals. A relocated coyote often ends up in a conflict with an older adult, as most areas are already occupied by a dominant pair. Coyotes can also travel hundreds of kilometres to return to their original capture location. Relocation also increases the potential for spreading disease and only moves the problem animal for authorities to deal with in its new location.

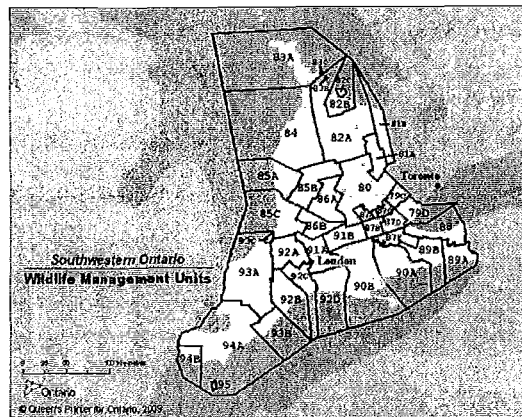

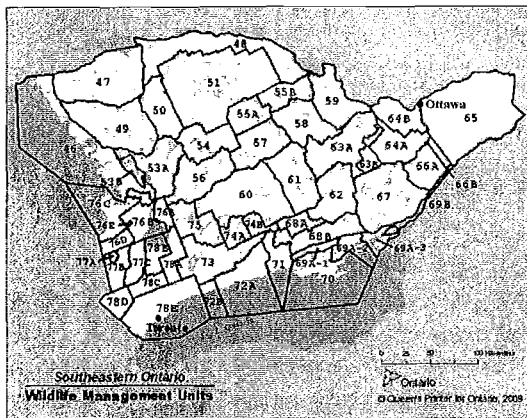

For more information on using an agent, to request an authorization, or to discuss these options further, please contact Bill Murch, District Communications Specialist at 519-826-4926.

Sincerely,

Ian Hagman
District Manager

Coyotes in the Community

January 22, 2010

Coyotes, like other wild animals, sometimes come into conflict with humans. Since migrating to Ontario from the west over 100 years ago, coyotes have adapted well to urban environments and can now be found in both rural and urban settings. Changes in land use, agricultural practices, weather and natural food shortages may contribute to increased coyote sightings in your community.

Responsibility for managing problem wildlife on properties

- Landowners are responsible for managing problem animals on their property. For example, if there are coyote problems on municipal property it is the municipality's responsibility to deal with them.
- The Ministry of Natural Resources helps landowners and municipalities deal with problem wildlife by providing fact sheets, appropriate agency and animal control services referrals, and information necessary to obtain authorizations where required.
- The Fish and Wildlife Conservation Act sets out the legal actions property owners can take to deal with problem wildlife. Generally, landowners or their agents may capture, kill, or harass problem wildlife to prevent damage to their property. There is no closed season for coyotes in the majority of southern Ontario.

Homeowners can take steps to ensure coyotes aren't attracted to their property and to keep their pets safe. To reduce the potential for coyote encounters, the Ministry of Natural Resources has these tips for the public.

Do not approach or feed coyotes

- Coyotes are usually wary of humans and avoid people whenever possible. However, they are wild animals and should not be approached.
- People should NOT feed coyotes. Feeding them makes the animals less fearful of humans and habituates them to foods provided by humans.
- Aggressive behaviour towards people is unusual for coyotes, but people should always exercise caution around wildlife.

If you encounter a coyote

- Never attempt to "tame" a coyote.
- Do not turn your back on or run from a coyote. Back away from the coyote while remaining calm.
- Use whistles and personal alarm devices to frighten an approaching or threatening animal.

Secure garbage and minimize attractants on your property

- Properly store and maintain garbage containers to help prevent coyotes from becoming a problem.
- Place trash bins inside an enclosed structure to discourage the presence of small rodents, which are an important food source for coyotes.
- Put garbage at curbside the morning of the scheduled pickup, rather than the night before.
- Use enclosed composting bins rather than exposed piles. Coyotes are attracted to dog and cat waste as well as products containing meat, milk and eggs.
- Pick ripe fruit from fruit trees and remove fallen fruit from the ground and keep bird feeders from overflowing as coyotes are fond of fruit, nuts, and seeds.

2/...

- Protect vegetable gardens with heavy-duty garden fences or place vegetable plants in a greenhouse. Check with your local nursery to see what deterrent products are available.
- Consider eliminating artificial water sources such as koi ponds.
- Keep pet food indoors.

Use deterrents and fences to keep coyotes away from your home and gardens

- Use motion-sensitive lighting and/or motion-activated sprinkler systems to make your property less attractive to coyotes and other nocturnal wildlife.
- Fence your property or yard. It is recommended the fence be at least six feet tall with the bottom extending at least six inches below the ground and/or a foot outward. A roller system can be attached to the top of the fence, preventing animals from gaining the foothold they need to pull themselves up and over the top of a fence.
- Electric fencing can also help deter coyotes from properties or gardens in some circumstances
- Clear away bushes and dense weeds near your home where coyotes may find cover and small animals to feed upon.
- Close off crawl spaces under porches, decks, and sheds. Coyotes use such areas for denning and raising young.

Keep all pets on leashes or confined to a yard

- Cats and small dogs may be seen as prey by coyotes, while larger dogs may be injured in a confrontation. To avoid these situations consider the following suggestions:
- Install proper fencing (see above).
- As coyotes are primarily nocturnal, animals should be kept inside at night.
- Keep cats indoors and do not allow pets to roam from home.
- Walk your dog on a leash at all times. If your yard does not have a fence, use a leash while on your property to keep your dog close to you.
- Spay or neuter your dogs. Coyotes are attracted to, and can mate with, domestic dogs that have not been spayed or neutered.

Prevent predation on livestock

- Barns or sheds can provide effective protection from coyote predation for livestock that bed inside or nearby at night.
- Guard animals, such as donkeys, llamas and dogs can be a cost-effective way to protect livestock from coyotes. Guard animals will develop a bond with livestock if they are slowly integrated and will aggressively repel predators.
- For more information on preventing livestock predation, please visit the [Ministry of Agriculture, Food and Rural Affairs \(OMAFRA\)](http://www.omafra.gov.on.ca/english/livestock/sheep/predator.html) website at www.omafra.gov.on.ca/english/livestock/sheep/predator.html.

LEARN MORE

- To learn more about coyotes, including how to deal with coyote problems, call your [local Ministry of Natural Resources district office](#). If the coyote poses an immediate threat or danger to public safety, call 911.

Bill Murch, Communications Officer

EASTERN COYOTE

February 16, 2010

GENERAL BIOLOGY

The eastern coyote, found throughout much of Ontario, is a hybrid between the smaller western coyote and the eastern wolf. Adult females weigh an average of 13 to 16 kilograms (kg), while adult males usually range between 16 to 18 kg. The size and weight of coyotes are often over-estimated because of their thick coats and bushy tails.

In protected areas coyotes can live eight to 12 years, but in areas where they are hunted, or in populated areas like southern Ontario where vehicle collisions are common, the average life expectancy is less than five years.

The coyote's basic social unit is a mated pair, and coyote pairs will often mate for life. Coyotes are territorial and territories are generally exclusive of other breeding coyotes. Territory size can range from a few square kilometres where food is abundant to over a hundred where prey is very scarce.

The availability of food affects what coyotes eat, the size of their territory and populations, reproduction and survival rates. It also affects when pups leave their parents and how far they will travel to establish their own territories.

LIFE CYCLE

Mated pairs usually breed in February, with pups born in April or May. Litters average five or six pups, but can range from two to 10. Both parents share pup-rearing duties, and begin to teach the pups hunting skills when the pups are about eight to 10 weeks old.

Juveniles usually leave their parents' territory during their first autumn or winter to establish their own territory. "Packs" of coyotes are generally an adult breeding pair and their pups from the most recent litter.

DIET

Coyotes are opportunistic feeders and will consume a variety of foods, including meat, carrion (dead animals), fruits and vegetable matter. In winter, their diet consists mainly of rabbits, hares, and deer when deep snow restricts the deer's mobility. In spring, summer and fall, coyotes prey mainly on small mammals (rodents, rabbits, mice and voles) and eat wild berries, birds, amphibians, grasshoppers, and deer fawns.

Because their diet consists mainly of small rodents, coyotes can be very beneficial in controlling pests that may cause damage to crops and orchards. However, livestock such as sheep, lambs, and calves can also be prey to coyotes.

HABITAT

Coyotes are highly adaptable. They are most commonly associated with open, agricultural landscapes interspersed with woodlots and other brushy terrain. However, they also inhabit green spaces and industrial areas within cities.

POPULATIONS

Coyote populations normally fluctuate in response to the abundance or scarcity of food. When food supplies are limited, they experience higher mortality rates and lower reproduction rates. Only 20 to 50 per cent of pups survive their first year. Humans account for most coyote deaths through hunting, trapping, and motor-vehicle accidents.

Impact of Harvesting on Populations

Within each territory, one breeding pair of coyotes produces a single litter of pups each year. These breeding males and females tend to have relatively high survival rates because of their familiarity with their territory and their reduced tendency to "take risks".

Most harvested coyotes are juveniles that have left their parents' territories and are looking for their own territory and mate. Harvest by humans does little to disrupt breeding or reduce coyote numbers from one year to the next. Without a territory, most of the juvenile coyotes harvested would likely have died of other causes in a relatively short period of time anyway.

BEHAVIOUR

Since migrating to Ontario more than 100 years ago, the coyote has adapted well to both rural and urban environments. The eastern coyote is now an integral and permanent part of our diverse landscape, and performs an important role as a top predator in southern Ontario where most other large predators, such as bears and wolves, are no longer present.

Many people hear coyotes without ever seeing them because of their nighttime howls, barks, throat growls and yips. Coyotes howl to broadcast occupancy of their territory and keep members of the family group aware of each other's locations while hunting or traveling alone. Howling may also help coordinate some hunting activities.

Coyotes are usually wary of humans and avoid people whenever possible. They have adapted well to living near humans and development. In urban areas coyotes tend to be nocturnal. They typically roam at night looking for food and spend the daylight hours bedded in bushy or wooded areas. Although unusual, coyotes in urban areas may search for food during the day and may prey on small dogs and other pets from yards in residential areas and from green spaces.

It is unusual for coyotes to show no fear of humans. Coyotes displaying no fear of humans or exhibiting aggressive behaviours have likely been habituated to people through direct feeding or indirect feeding, such as leaving attractants like pet food outside near homes. In these situations, this aggressive behaviour tends to be restricted to a single animal or family group, and not the general population.

LANDOWNER CONFLICTS

Homeowners can take steps to avoid attracting coyotes to their property, keep their pets and livestock safe, and reduce the potential for coyote encounters. For more information on this, see the ministry's Coyotes in the Community fact sheet.

Under the Fish and Wildlife Conservation Act, landowners are responsible for managing problem coyotes on their property. Those actions can include harassing, capturing and releasing the animal in close proximity to the capture site, or killing it. Landowners may also use agents authorized under the Act or by the ministry to undertake these measures on their behalf. Anyone who kills a coyote in protection of property in Wildlife Management Units 1-42, 46-50 and 53-58 must immediately report it to the local ministry office. Landowners should also check with their municipality regarding firearm discharge bylaws in their area.

When dealing with coyote conflicts, history shows "bounties" or "culls" are not effective. Most coyotes removed under these programs are the easy-to-catch juveniles or transient animals passing through an area, not the breeding adults that are most often the problem. In addition, programs such as "bounties" don't target the specific animals causing the conflict or problem in specific areas, but rather indiscriminately target all coyotes across a broad region. Bounties – financial incentives to hunt and trap – have been illegal in Ontario since 1972.

Municipalities and counties may say "bounties" when they actually mean paying authorized agents, under an authorization from the Ministry of Natural Resources, to kill problem coyotes. This authorization has conditions on targeting specific problem coyotes such as those that are killing livestock. These authorizations are for relatively short periods and are confined to specific geographic areas where problem coyotes have been identified.

Research also demonstrates that relocating coyotes is not a solution. Coyotes are highly mobile and territorial animals. A relocated coyote usually ends up in a conflict with an older adult, as most areas are already occupied by a dominant pair. Coyotes can also travel hundreds of kilometres to return to their original capture location. As well, relocation increases the potential for spreading disease.

DISEASES

Coyote diseases or parasites can be a risk to domestic dogs but rarely to humans. Rabies is rare in coyotes in Ontario. Coyotes may actually help to reduce the incidence of rabies in Ontario since they often prey on foxes, a species more likely to carry the disease.

Mange is common in coyote populations in Ontario. Mange is caused by a parasitic mite that burrows into the outer layer of the skin, resulting in extreme irritation. It can result in the death of the animal.

LEARN MORE

To learn more about coyotes, including how to deal with coyote problems, call your local Ministry of Natural Resources district office. If the coyote poses an immediate threat or danger to public safety, call 911.

April 26, 2010

To County of Wellington Mayors, Councils and Clerks:

Re: County-wide Active Transportation Plan Resolution

The Council of the Town of Minto at their regular meeting held on April 21, 2010 approved the following resolution:

WHEREAS the Town of Minto recognizes that walking and cycling are two active modes of transportation that contribute to a healthy and physically active community;

AND WHEREAS encouraging active transportation has positive affects on the social and physical well-being of individuals in the community which can lower healthcare costs;

AND WHEREAS by working together the municipalities in the County of Wellington can integrate current activities, within each individual municipality, to develop a linked county-wide Active Transportation Plan and as partners can seek grant funds for such a plan;

THEREFORE the Council of the Town of Minto resolves to support the creation of a Terms of Reference for a county-wide Active Transportation Plan;

*AND FURTHER THAT the Council of the Town of Minto supports the Wellington Dufferin Guelph **in motion** regional and local committees as the group to assist with the preparation of grant applications and the undertaking of community consultation towards the preparation of a Terms of Reference;*

AND FURTHER THAT the Council of the Town of Minto approves the designation of Director of Recreation Dave Stonley and other departmental staff to provide input into the process.

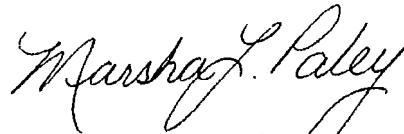

5941 Highway #89
Harriston, Ontario
N0G 1Z0

tel: 519-338-2511
fax: 519-338-2005

www.town.minto.on.ca

Town of Minto Council and staff would appreciate your support of the resolution. If you have any questions, please contact me at (519) 338-2511 ext. 37 or via e-mail at marsha@town.minto.on.ca.

Regards,

Marsha L. Paley, MCIP, RPP, CMO
Clerk-Administrator

cc: Joanne Ross-Zuj, Warden, County of Wellington
Donna Bryce, Clerk, County of Wellington

**THE CORPORATION OF THE
TOWNSHIP OF WELLINGTON NORTH**

BY-LAW NUMBER 35-10

**BEING A BY-LAW TO AMEND ZONING BY-LAW NUMBER 66-01
BEING THE ZONING BY-LAW FOR THE TOWNSHIP OF
WELLINGTON NORTH (Lots 40 and 45, Plan 61M-140, Eastridge
Landing)**

WHEREAS, the Council of the Corporation of the Township of Wellington North deems it necessary to amend By-law Number 66-01;

NOW THEREFORE the Council of the Corporation of the Township of Wellington North enacts as follows:

1. THAT Schedule "A", Map 2 - Arthur to By-law 66-01 being the Zoning By-law for the Township of Wellington North is amended by changing the zoning on the lands described as Lots 40 and 45, Eastridge Landing, Schmidt Drive, Arthur urban area, Township of Wellington North, from Residential Exception Holding (R1C-26 [H]) to Residential Exception Holding (R2-29 [H]).
2. THAT Section 31, Exception Zone – Arthur Village, is amended by the inclusion of the following new exception:

"31.29 R2-29 <i>Schmidt Dr.</i>	<i>Notwithstanding Section 12.2, the minimum interior side yard for a two storey dwelling shall be 1.2 metres (3.9 feet), provided there is an attached garage. Notwithstanding Section 12.2, the minimum exterior side yard for a two storey dwelling shall be 6.09 metres (20 feet)."</i>
------------------------------------	---
3. THAT except as amended by this By-law, the land as shown on the attached Schedule 'A' shall be subject to all applicable regulations of Zoning By-law 66-01, as amended.
4. THAT this By-law Amendment shall come into effect upon the final passing thereof pursuant to Section 34(21) and Section 34(22) of The Planning Act, R.S.O., 1990, as amended, or where applicable, pursuant to Sections 34(30) and (31) of the Planning Act, R.S.O., 1990, as amended.

***READ A FIRST, SECOND AND THIRD TIME AND FINALLY PASSED
THIS 3RD DAY OF MAY, 2010.***

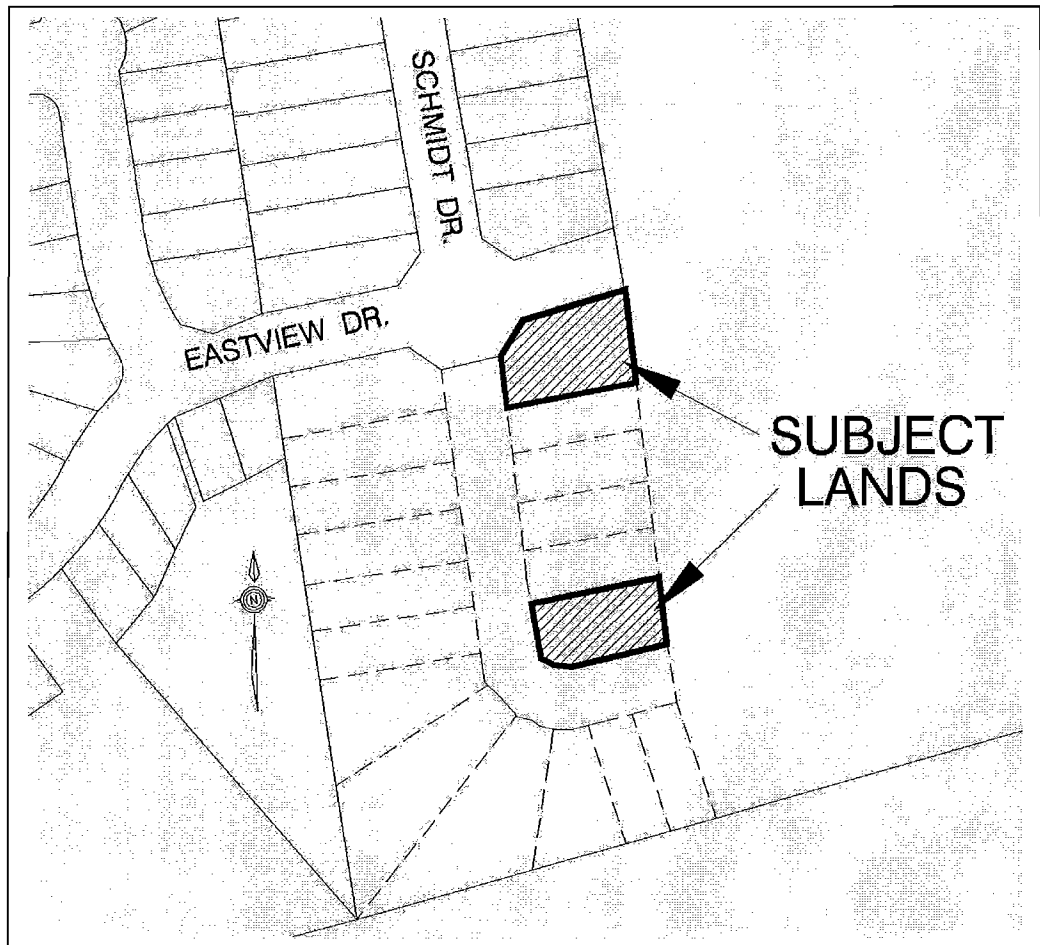

**MICHAEL BROOMHEAD
MAYOR**

**LORRAINE HEINBUCH
CHIEF ADMINISTRATIVE OFFICER/CLERK**

**THE CORPORATION OF THE
TOWNSHIP OF WELLINGTON NORTH**

BY-LAW NUMBER 35-10

SCHEDULE "A"

**From Residential Exception Holding (R1C-26[H])
to Residential Exception Holding (R2-29[H])**

This is Schedule "A" to By-law No. 31-10
Passed this 19th day of April, 2010

M. Broomhead, MAYOR

L. Heinbuch, C.A.O./CLERK

EXPLANATORY NOTE

BY-LAW NUMBER 35-10

THE LOCATION OF THE SUBJECT LANDS is described as Lots 40 and 45, Eastridge Landing on Schmidt Drive, in the former Village of Arthur.

THE PURPOSE AND EFFECT of the amendment is to rezone two corner lots from Residential Exception Holding (R1C-26 [H]) to a Residential Exception Holding (R2-29 [H]). This would permit the development of semi-detached dwellings on each of these lots. In addition, the minimum required exterior side yard is being reduced from 24.9 feet down to 20 feet to accommodate the building plans.

**THE CORPORATION OF THE
TOWNSHIP OF WELLINGTON NORTH**

BY-LAW NUMBER 36-10

**BEING A BY-LAW TO CONFIRM THE PROCEEDINGS OF THE
COUNCIL OF THE CORPORATION OF THE TOWNSHIP OF
WELLINGTON NORTH AT ITS REGULAR MEETING HELD ON MAY
3, 2010.**

AUTHORITY: Municipal Act, 2001, S.O. 2001, c.25, as amended, Sections 5(3) and 130.

WHEREAS the Municipal Act, 2001, S.O. 2001, c.25, as amended, Section 5(3), provides that the jurisdiction of every council is confined to the municipality that it represents and its powers shall be exercised by by-law.

AND WHEREAS the Municipal Act, 2001, S.O. 2001, c.25, as amended, Section 130 provides that every council may pass such by-laws and make such regulations for the health, safety and well-being of the inhabitants of the municipality in matters not specifically provided for by this Act and for governing the conduct of its members as may be deemed expedient and are not contrary to law.

NOW THEREFORE the Council of The Corporation of the Township of Wellington North hereby **ENACTS AS FOLLOWS:**

1. That the action of the Council at its Regular Meeting held on May 3, 2010 in respect to each report, motion, resolution or other action passed and taken by the Council at its meeting, is hereby adopted, ratified and confirmed, as if each resolution or other action was adopted, ratified and confirmed by separate by-law.
2. That the Mayor and the proper officers of the Township are hereby authorized and directed to do all things necessary to give effect to the said action, or to obtain approvals where required, and, except where otherwise provided, the Mayor and the Clerk are hereby directed to execute all documents necessary in that behalf and to affix the corporate seal of the Township to all such documents.
3. That this by-law, to the extent to which it provides authority for or constitutes the exercise by the Council of its power to proceed with, or to provide any money for, any undertaking work, project, scheme, act, matter or thing referred to in subsection 65 (1) of the Ontario Municipal Board Act, R.S.O. 1990, Chapter 0.28, shall not take effect until the approval of the Ontario Municipal Board with respect thereto, required under such subsection, has been obtained.
4. That any acquisition or purchase of land or of an interest in land pursuant to this by-law or pursuant to an option or agreement authorized by this by-law, is conditional on compliance with Environmental Assessment Act, R.S.O. 1990, Chapter E.18.

**READ A FIRST, SECOND AND THIRD TIME AND FINALLY PASSED
THIS 3RD DAY OF MAY, 2010.**

**MICHAEL BROOMHEAD,
MAYOR**

**LORRAINE HEINBUCH
CHIEF ADMINISTRATIVE OFFICER/CLERK**
