Township of Wellington North

PLANNING REPORT for the TOWNSHIP OF WELLINGTON NORTH

Prepared by the County of Wellington Planning and Development
Department

DATE: April 24, 2018
TO: Mike Givens, C.A.O.
Township of Wellington North
FROM: Mark Paoli, Manager of Policy Planning
County of Wellington
SUBJECT: **Drinking Water Source Protection
Zoning By-law Amendment**

PLANNING OPINION

We recommend approval of this proposed Zoning Amendment that would bring the Wellington North Zoning By-Law into conformity with applicable Source Protection Plans and the County Official Plan. A Draft By-Law is attached.

PROPOSAL

The purpose of the proposed amendment is to bring the Wellington North Zoning By-Law into conformity with the Grand River and Saugeen Valley Source Protection Plans.

BACKGROUND

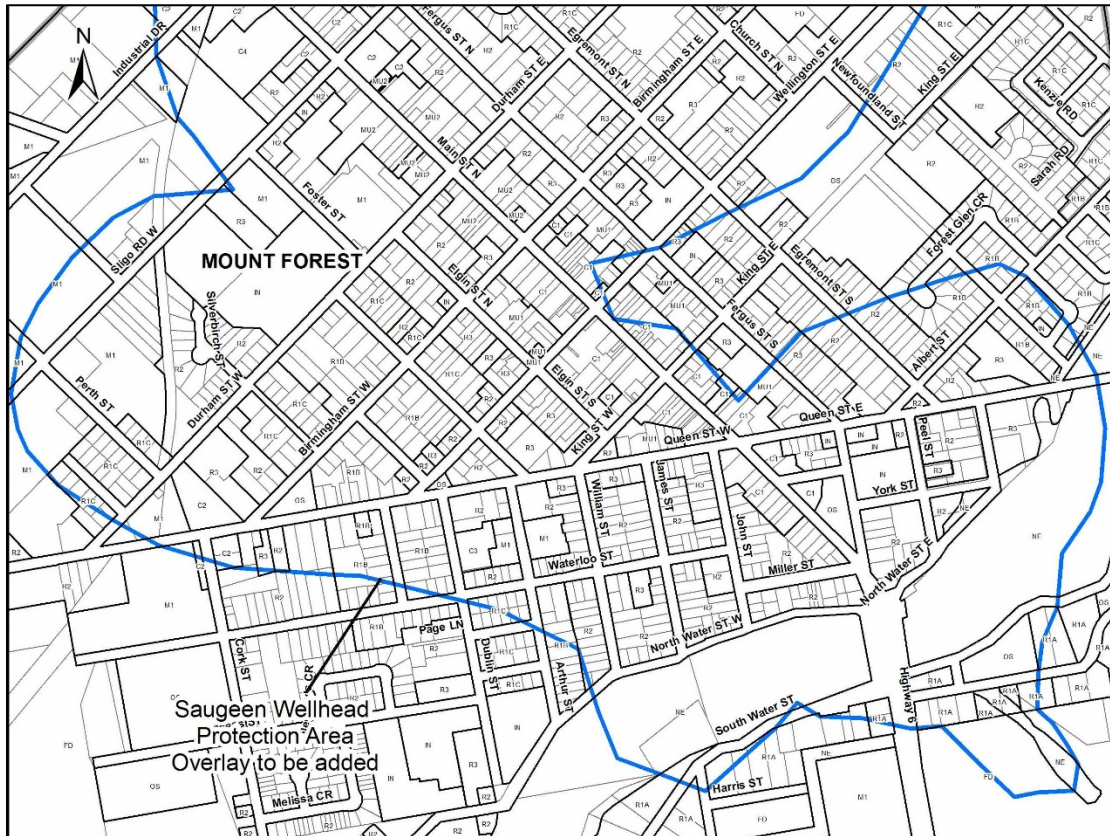

The *Clean Water Act*, 2006 introduced a new level of protection for Ontario's drinking water resources and new requirements for protecting vulnerable drinking water resources at-source. One requirement is that each Source Protection Area (based on watersheds) must produce a Source Protection Plan.

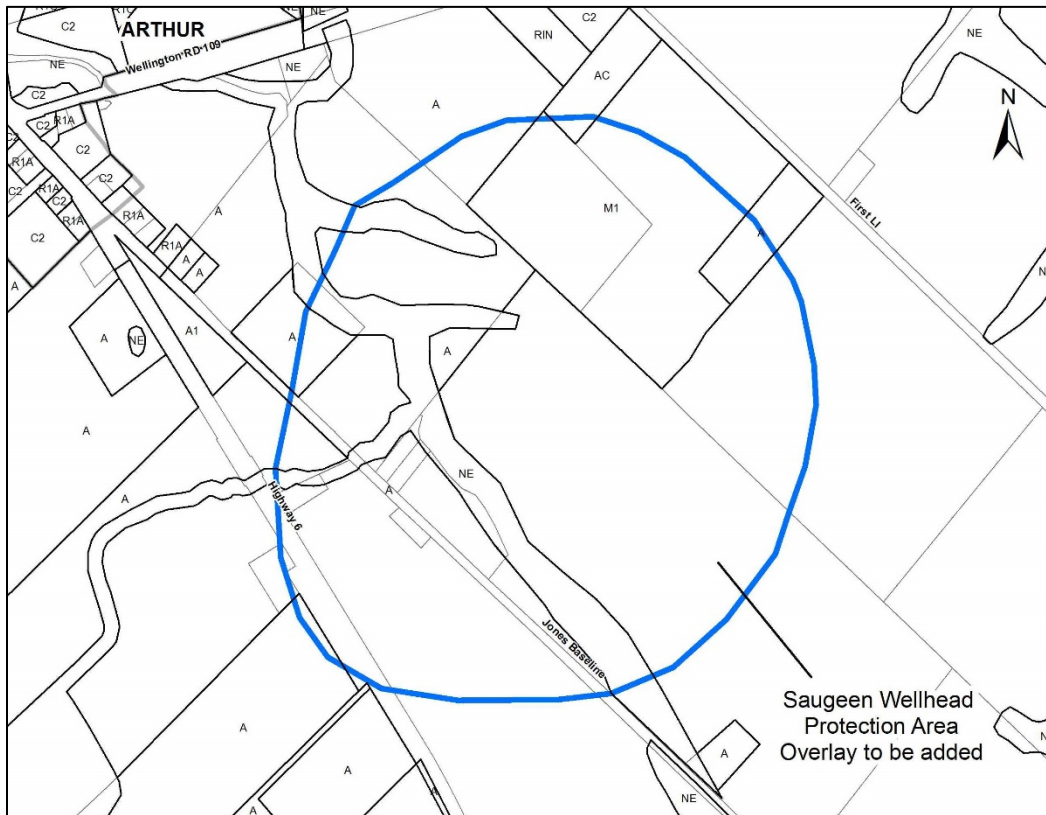

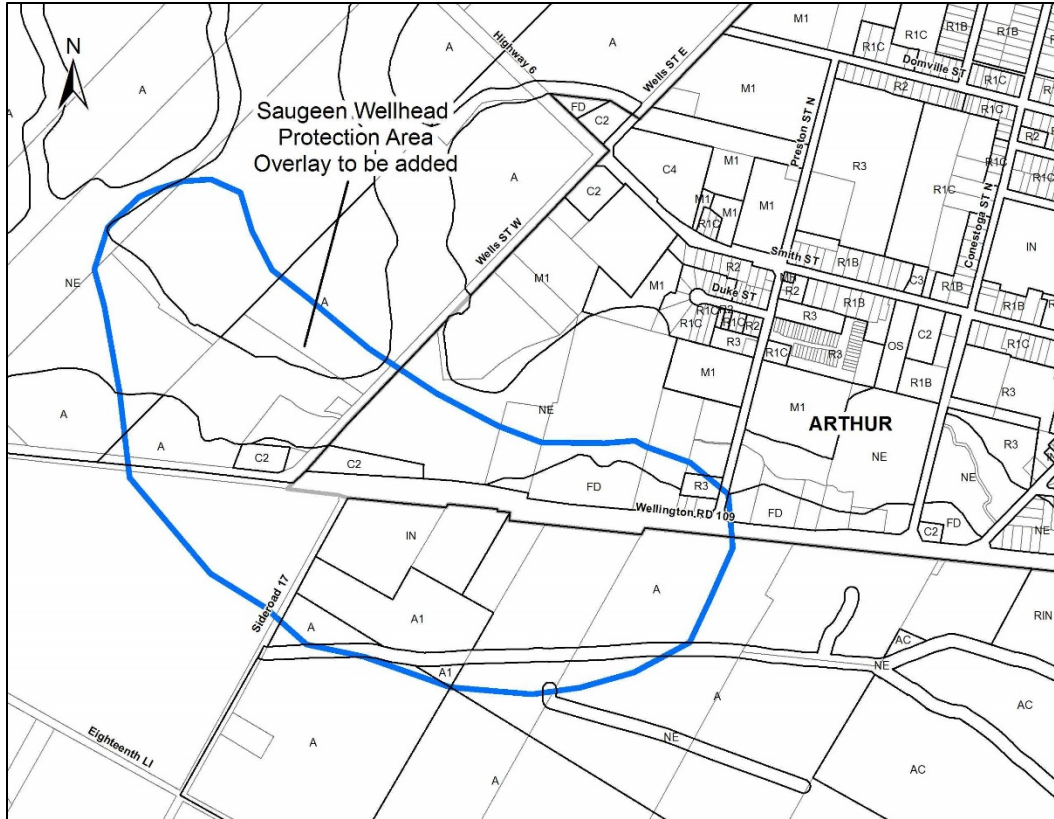

The Arthur municipal wells are in the Grand River Source Protection Plan and the Mount Forest municipal wells are in the Saugeen Valley Source Protection Plan. County Council amended the Official Plan to conform with all of the Source Protection Plans in Wellington through Official Plan Amendment No. 98 (OPA 98). OPA 98 was Adopted in May, 2016.

The Grand River Source Protection Plan requires Zoning By-Laws to be amended within two years from adoption of the Official Plan conformity amendment (May 2018).

SUBJECT LANDS

The lands subject to the amendment are the lands within the Wellhead Protection Areas shown on the maps below.

The lands subject to the Saugeen Valley Wellhead Protection Overlay are in the Mount Forest Urban Centre and are mostly zoned: Central Commercial (C1); Mixed Use (MU1 and MU2); Highway Commercial (C2); Shopping Centre Commercial (C4); Industrial (M1); the full range of Residential Zones; Institutional (IN); Future Development (FD); and Natural Environment (NE).

One of the areas subject to the Grand River Source Protection Overlay straddles the urban-rural boundary on the west side of Arthur. The portions in Arthur are zoned Highway Commercial (C2) and Future Development (FD) while the rural area is mainly zoned Agricultural (A) and Institutional (IN). The Natural Environment (NE) Zone associated with the Conestogo River extends through this area. The other area subject to the Grand River Source Protection Overlay is in the rural area south and east of Arthur and it is mainly zoned Agricultural (A) and Industrial (M1).

SOURCE PROTECTION PLANS

Source Protection Plans identify tools for implementing each policy for each specific threat. The implementation tools can include: prescribed instruments (such as Ministry of Environment Certificates of Approval); prohibition or risk management by the Risk Management Official under the *Clean Water Act*; and land use policy or regulation under the *Planning Act*.

Grand River Source Protection Plan

The Grand River Source Protection Plan does not rely directly on land use policy or regulation for implementation, relying instead on prescribed instruments or Risk Management Official powers for implementation.

The Grand River Source Protection Plan does require the Official Plan and Zoning By-Law to:

- identify the vulnerable areas in which drinking water threats would be significant (in Wellington North these are Wellhead Protection Areas A through C);
- indicate in the text, that within these areas, any use or activity that is, or would be, a significant threat is required to conform with the Source Protection Plan and, as such, may be prohibited, restricted or otherwise regulated by those policies.

Saugeen Valley Source Protection Plan

The Saugeen Valley Source Protection Plan relies on land use policy and regulation to prohibit land disposal of waste in vulnerable areas.

The Saugeen Valley Plan also contains policies to be addressed related to: sewer requirements for new lots; stormwater management review requirements; separation of combined sewers; and prevention of infiltration of waste water into groundwater aquifers. These policies are already in the Official Plan where they are more appropriately addressed, and are outside the scope of Zoning By-Law powers in our view.

The Saugeen Valley Source Protection Plan also requires the Official Plan and Zoning By-Law to include:

- mapping that identifies the vulnerable areas (in Wellington North these are Wellhead Protection Areas A through C) where activities would be significant threats (future activities);
- text that identifies that policies within the Source Protection Plan may apply to activities in these areas.

COUNTY OFFICIAL PLAN

The County Official Plan shows the relevant Wellhead Protection Areas in Wellington North on Schedule B6 and the main policies that relate to these areas are excerpted below:

Section 4.9.5.3 Land Use and Activity Prohibitions, Regulations and Restrictions within Vulnerable Areas

Notwithstanding the land uses permitted by the underlying land use designation in this Official Plan:

- Permitted land uses that involve a significant drinking water threat within a vulnerable area identified in Schedule B to this Plan may be either prohibited or regulated by the applicable Source Protection Plan;
- The County's Risk Management Official shall determine whether a new land use or activity is, or involves, a significant drinking water threat in accordance with the *Clean Water Act, 2006* and whether the use or activity is prohibited or regulated through a Risk Management Plan in accordance with the applicable Source Protection Plan; and

Saugeen, Grey Sauble, Northern Bruce Peninsula Source Protection Plan Area

The following policies shall apply to lands within the County that are located within the Saugeen, Grey Sauble, Northern Bruce Peninsula Source Protection Plan Area as identified in Appendix 4:

- a) The following waste disposal facilities shall be prohibited within WHPAs with a vulnerability score of 8 or 10, and IPZs with a vulnerability score of 10, where they would be considered a significant drinking water threat:
 - i. Land disposal of petroleum refining waste within the meaning of clause (d) of the definition of "land disposal" in section 1 of Regulation 347 (General – Waste Management) R.R.O. 1990 made under the *Environmental Protection Act*;

- ii. Land disposal of municipal waste, hazardous waste, liquid industrial waste, or processed liquid industrial waste, within the meaning of clauses a) and b) of the definition of “land disposal” in section 1 of Regulation 347 (General – Waste Management) R.R.O. 1990 made under the Environmental Protection Act; and
 - iii. Land disposal of liquid industrial waste, industrial waste, or commercial waste within the meaning of clause (c) of the definition of “land disposal” in section 1 of Regulation 347 (General – Waste Management) R.R.O. 1990 made under the Environmental Protection Act.
- b) Where the establishment, operation or maintenance of a septic system within WHPAs and IPZs with a vulnerability score of 10 would be considered a significant drinking water threat, new lots created through severance or subdivision under the Planning Act shall only be permitted by the approval authority where the lots will be serviced by a municipal sewage system.
- c) The local area municipality shall consider establishing or continuing programs that reduce infiltration of waste water into groundwater aquifers from sanitary sewers and related pipes or discharge from a stormwater management facility within a WHPA with a vulnerability score of 10.

PLANNING DISCUSSION

When a building permit or planning application is submitted, it is screened at the Township (or County for consents) as to whether it is in a Wellhead Protection Area. If the subject lands are in a Wellhead Protection Area and it meets other screening criteria, the application is forwarded to the Risk Management Official for review. The Risk Management Official then determines what requirements, if any, need to be addressed by the applicant. The forms and procedures for this process, which are already in place at the Township and the County, will not need to change as a result of the proposed amendment.

It is also important to note that the Grand River Source Protection Plan includes a policy to the effect that development proposals for solely residential uses are exempt from the above requirements. The Grand River Plan also provides discretion to the Risk Management Official to determine that certain types of development proposals are exempt from the above requirements. This policy has reduced the number of applications that need to be handled by the Risk Management Official in the Arthur area.

When dealing with drinking water source protection it is helpful to recognize that there is a difference between a “land use” and an “activity that would be a significant drinking water threat”. Depending on the specific nature of the business, a “land use”, such as Industrial, may or may not include a significant threat activity. For example, while manufacturing may be a

permitted industrial *use*, a risk management plan detailing measures on chemical handling and storage *activities* may be required prior to *Planning Act* approval or Building Permit issuance. Equally, if the proposed industrial use will not involve any significant drinking water threat activities, then there would be no additional requirements.

The Zoning By-Law currently has provisions that prohibit a landfill/waste disposal site across the Township; the wording of these provisions is somewhat dated. The Saugeen Valley Source Protection Plan also has policies that prohibit land disposal of waste in the vulnerable areas. The terminology related to waste disposal was reviewed and is proposed to be changed to: bring the terminology up to date; and, to conform with the Saugeen Valley Source Protection Plan. The amended By-Law would exceed the Saugeen Plan requirements in our view because the provisions would apply Township-wide.

DRAFT ZONING BY-LAW

The Draft Zoning By-Law Amendment that has been circulated for comments would:

- i) Add the Saugeen Valley and Grand River Wellhead Protection Area Overlays to Maps 1, 2, 3 and 3A;
- ii) Add provisions that any use that is, or would be, a significant drinking water threat is required to conform with all policies of the applicable Source Protection Plan and, as such, may be prohibited, restricted, or otherwise regulated by the applicable Source Protection Plan;
- iii) Revise Section 6.35.2 Restricted Uses to update the wording and to conform with Saugeen Source Protection Plan significant threat policies on waste disposal; and
- iv) Include new definitions as needed.

A draft Zoning By-law Amendment has been prepared for public and agency review and Council's consideration, and is attached to this report.

Respectfully submitted,

County of Wellington Planning and Development Department

Mark Paoli, M.Sc., MCIP, RPP
Manager of Policy Planning

THE CORPORATION OF THE TOWNSHIP OF WELLINGTON NORTH
DRAFT BY-LAW NUMBER _____.

BEING A BY-LAW TO AMEND ZONING BY-LAW NUMBER 66-01
BEING THE ZONING BY-LAW FOR THE TOWNSHIP OF WELLINGTON NORTH

WHEREAS, the Council of the Corporation of the Township of Wellington North deems it necessary to amend By-law Number 66-01; as amended pursuant to Section 34 of The Planning Act, R.S.O. 1990, as amended

NOW THEREFORE the Council of the Corporation of the Township of Wellington North enacts as follows:

1. THAT **Section 5 Definitions**, is amended by adding the following new definitions in alphabetical order:

DUMP means a waste disposal site where waste is deposited without cover material being applied at regular intervals.

LAND DISPOSAL within the meaning of Section 1 of Regulation 347 (General – Waste Management) made under the *Environmental Protection Act* means, with respect to waste, the deposit or disposal of the waste upon, into, in or through land, including,

- (a) the deposit of the waste at a dump,
- (b) the landfilling of the waste,
- (c) the discharge of the waste into a geological formation by means of a well, and
- (d) the landfarming of the waste, in the case of a petroleum refining waste.

LANDFARMING means the biodegradation of petroleum refining wastes by naturally occurring soil bacteria by means of controlled application of the wastes to land followed by periodic tilling;

LANDFILLING means the disposal of waste by deposit, under controlled conditions, on land or on land covered by water, and includes compaction of the waste into a cell and covering the waste with cover materials at regular intervals;

SIGNIFICANT DRINKING WATER THREAT means a drinking water threat that, according to a risk assessment, poses or has the potential to pose a significant risk (*Clean Water Act*).

SOURCE PROTECTION PLAN means a drinking water source protection plan prepared under the *Clean Water Act* (*Clean Water Act*).

WELLHEAD PROTECTION AREA means an area that is related to a wellhead and within which it is desirable to regulate or monitor drinking water threats (*Ontario Regulation 287/07*).

2. THAT **Section 6.35.2 Restricted Uses** is amended by deleting the fourth bullet and replacing it with the following:

- **Land disposal of:**
 - a. **Petroleum refining waste**
 - b. **Hazardous waste, liquid industrial waste or processed liquid industrial waste**
 - c. **Liquid industrial waste**
 - d. **Industrial waste or commercial waste**
 - e. **Municipal waste**

3. THAT **Section 6 General Provisions**, is amended by:

- a) Renumbering **Section 6.36 Yard Encroachments** to **Section 6.37**; and
- b) Adding the following new subsection:

“6.36 WELLHEAD PROTECTION

The purpose of the provisions in this section is to prevent the inadvertent approval of Planning Act applications or the issuance of building permits that may result in the establishment of activities that are significant drinking water threats.

Explanatory Notes:

- 1. An application for development, redevelopment, or site alteration within a Wellhead Protection Area, where a drinking water threat could be significant, shall only be deemed complete under the *Planning Act* if submitted with a Section 59 Notice issued by the Risk Management Official, as appointed by the Township, in accordance with the *Clean Water Act, 2006* and where applicable in accordance with the Source Protection Plan.**
- 2. The Risk Management Official shall determine whether a new land use or activity is, or involves, a significant drinking water threat in accordance with the *Clean Water Act, 2006* and whether the use or activity is prohibited or regulated in accordance with the applicable Source Protection Plan.**

6.36.1 SAUGEEN VALLEY WELLHEAD PROTECTION AREA OVERLAY

Within the Saugeen Wellhead Protection Area Overlay shown on Maps 1, 3 and 3A, any use that is, or would be, a *significant drinking water threat* is required to conform with all applicable Saugeen Valley Source Protection Plan policies and, as such, may be prohibited, restricted, or otherwise regulated by that Source Protection Plan.

6.36.2 GRAND RIVER WELLHEAD PROTECTION AREA OVERLAY

Within the Grand River Wellhead Protection Area Overlay shown on Maps 1 and 2, any use that is, or would be, a *significant drinking water threat* is required to conform with all applicable Grand River Source Protection Plan policies and, as such, may be prohibited, restricted, or otherwise regulated by that Source Protection Plan.

4. THAT **Maps 1, 2, 3 and 3A** are amended as shown on Schedules A-1 and A-2 attached to and forming part of this By-law.
5. THAT this By-law shall come into effect upon the final passing thereof pursuant to Section 34(21) and Section 34(22) of The Planning Act, R.S.O., 1990, as amended, or where applicable, pursuant to Sections 34 (30) and (31) of the Planning Act, R.S.O., 1990, as amended.

ATTENTION: Darren Jones, CBO

Dear Mr. Jones:

RE: Proposed Zoning By-law Amendment
Township of Wellington North (Housekeeping By-law-Source Water Protection)

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the proposed zoning by-law amendment in accordance with the SVCA's mandate, and the SVCA Environmental Planning and Regulations Policies Manual, Approved May 16, 2017. According to The Township of Wellington North Notice of a Public Meeting to Consider Amendments to the Comprehensive Zoning By-law 66-01, the purpose and effect of the proposed amendment is to bring the Wellington North Zoning By-law into conformity with the Grand River, Saugeen Valley and Maitland Valley Source Protection Plans. The proposed zoning by-law amendment is acceptable to SVCA staff.

Please be advised that the SVCA is not the agency mandated to provide comments with regards to Source Water Protection, therefore SVCA Environmental Planning and Regulations staff will not be providing comments on text or mapping relating to Source Water Protection. Comments should be sought from the applicable Source Water Protection agencies regarding this proposed zoning by-law amendment.

Please be advised that SVCA staff do not have any natural hazard or natural heritage concerns relating to the proposed amendment.

The SVCA would appreciate receiving notice of the decision to the proposed amendment.

We trust you find this information helpful. Should questions arise, please do not hesitate to contact this office.

Sincerely,

Michael Oberle
Environmental Planning Technician

PLANNING REPORT for the TOWNSHIP OF WELLINGTON NORTH

Prepared by the County of Wellington Planning and Development Department

DATE: April 30, 2018
TO: Mike Givens, C.A.O.
Township of Wellington North
FROM: Linda Redmond, Manager of Planning & Environment
County of Wellington
SUBJECT: **2018 Housekeeping Amendment- Zoning By-law 66-01**
Zoning By-law Amendment

Planning Summary

This housekeeping amendment will introduce changes to the Township of Wellington North Zoning By-law 66-01 to clarify regulations and mapping, improve or refine regulations and correct any typographical inaccuracies. This report provides our preliminary comments on the proposed amendments, while providing an opportunity for further discussion and comments through the public meeting process.

PURPOSE

Housekeeping changes or amendments are intended to keep a zoning by-law relevant with other policy or legislation, user friendly, accurate and manageable. The current Zoning By-law was adopted in 2001 and has undergone three housekeeping amendments (2003, 2009 & 2013). The 2018 proposed housekeeping changes have been compiled through day to day usage of the document and are to edit, clarify and update the By-law. These housekeeping amendments have been developed in consultation with Darren Jones, Chief Building Official.

PLANNING DISCUSSION

Accessory Structures

Proposed increase in size to allow larger accessory structures in the rural area. Current size permitted is 1000 sq.ft. with additional increments of 100 sq.ft. per acre. The proposed increase is to permit a 2000 sq.ft. building with increments of 450 sq.ft. This change will eliminate the need for a number of variances for larger structures in the rural area. Additionally this change will also eliminate the need for additional zone amendments or variances that are required in order to recognize existing buildings retained with a surplus farm dwelling severance. The building size will be capped at 5000 sq.ft. and the height will also be capped at 22 ft. The increase in height is necessary to accommodate the building trusses that would be required for a larger structure. The following table shows the sliding scale:

Lot size (acres)	Existing Sq.ft.	Proposed Sq.ft.
1	1000	2000
2	1100	2450
3	1200	2900
4	1300	3350
5	1400	3800
6	1500	4250
7	1600	4700
8	1700	5000 max

Home Industry

Proposal is to increase the size of a structure used for a home industry from 2000 sq.ft. to 2500 sq.ft. This building size is consistent with the home industry requirements in other townships within the County.

The second change to the home industry criteria is to require a minimum lot area of 25 acres. Currently home industries are permitted on reduced agricultural lots, which could include lots that are 1 acre in size. This is contrary to the Provincial Policy Statement (PPS) which requires that on-farm diversified uses are to be located on a farm property that is actively farmed. The criteria further states that on-farm diversified provisions do not apply to small residential lots in the prime agricultural area.

These two changes will bring the home industry regulations into conformity with the current PPS regulations for on-farm diversified uses. It should be noted that the remaining home industry provisions in the by-law are more restrictive or prescribed than the PPS criteria.

Wellington North Community Growth Plan

There are a number of changes proposed to the zoning by-law that will address some of the recommendations/goals in the WNCGP, particularly as they relate to intensification and density. The following relevant Growth Management Goals have been identified:

- To direct and focus development to the urban areas of Arthur and Mount Forest as the primary centres and complete communities with a mix of land uses, housing, jobs and services.
- To plan and promote orderly, compact development within the urban areas, based on phasing to align with planning for infrastructure, transportation, facilities and services.
- Intensification Goals – To encourage intensification generally to achieve the desired urban structure.

To achieve this the following changes are proposed:

- Reduction of the front yard and exterior side yard setbacks to 6m for residential zones in the urban areas.
- Introduction of a smaller single family residential lot size – R1C and R2 proposed to have 40 ft. frontage and area of 4000 sq.ft.
- Distances required between cluster townhouse and apartment buildings on the same lot. The current criteria requires considerable distance between separate buildings on the same lot. The proposed criteria will decrease this, which will permit developments with higher density.
- Proposed to allow conversion of a single detached dwelling to allow an additional residential dwelling within the rural residential area.

All of the proposed Township initiated amendments are set out in the attached chart. The proposed amendments are intended to correct topographical errors, keep the by-law current and user friendly by introducing new criteria, enhance customer service by expediting appropriate development, maintain the effectiveness of the Zoning By-law and reduce the number of Committee of Adjustment applications.

Respectfully submitted

Linda Redmond
Manager of Planning & Environment

2018 Proposed Housekeeping Amendments – By-law 66-01

<p>Section 5 Definitions</p>	<p>1</p>	<p>New Definitions</p> <p>AIR CONDITIONERS AND HEAT PUMPS, means equipment designed to heat or cool the interior of buildings and structures and which are normally located outside or on a roof.</p> <p>OUTDOOR STORAGE, means the use of land for outdoor storage of equipment, goods or materials in the open air. It does not include storage in transport truck trailers.</p> <p>PARKING SPACE ANGLED, means the orientation of a parking space in such a manner that the side of a motor vehicle, when parked, is at an angle other than parallel to the drive aisle, driveway, lane, or street which gives direct access to such parking space.</p> <p>PARKING SPACE, BARRIER FREE ACCESSIBLE, means a parking space provided for the use of persons with disabilities pursuant to the Accessibility for Ontarians with Disabilities Act.</p> <p>PARKING SPACE, PARALLEL, means the orientation of a parking space in such a manner that the side of a motor vehicle, when parked, is parallel to the drive aisle, driveway, lane, or street which gives direct access to such parking space.</p> <p>PARKING SPACE, TANDEM, means the arrangement of two parking spaces such that it is necessary to traverse one parking space to gain access to the other from a lane, drive aisle, driveway, or street.</p> <p>PARKING SPACE, VISITOR, means a parking space for the exclusive use of visitors to a premises.</p> <p>SEASONAL DWELLING UNIT,</p> <p>STACKING LANE, means a continuous on-site queuing lane that includes stacking spaces for motor vehicles which is separated from other vehicular traffic and pedestrian circulation by barriers, markings, or signs.</p> <p>STACKING SPACE, means a rectangular space that may be provided in succession and is designed to be used for the temporary queuing of a motor vehicle in a stacking lane.</p>	
<p>Section 5 Definition Amend- ments</p>		<p>Numbering - Remove</p>	<p>Remove 5.1 to 5.237</p>
		<p>ACCESSORY – add wording to clarify habitation meaning</p>	<p>ACCESSORY, when used to describe a use, building or structure, means a use, building or structure, which is incidental, subordinate, and exclusively devoted to the main use, building, or structure located on the same lot</p>

Zoning By-Law 66- 01 Section	ZBA Section	Existing provision/section	Proposed provision/section
			and in the same Zone as such use, building or structure and which is not used or intended for use as human habitation unless permitted by the provisions of certain Zones of this By-law.
		BUILDING , add wording to address coverall structures.	BUILDING , means any structure temporary or permanent, which is used or intended to be used for the shelter, accommodation or enclosure of persons, animals or chattels, and shall include a tarped/coverall structure but does not include a lawful boundary wall or fence.
		HEIGHT or BUILDING HEIGHT , clarify	HEIGHT or BUILDING HEIGHT, when used in reference to a building or structure, means the vertical dimension of a building or structure measured from the centre front elevation average grade of the finished grade to,
		SEWAGE TREATMENT FACILITY , means a use, building, structure or parts thereof, approved by the Ministry of the Environment for the treatment and disposal of domestic and industrial waste, and storm water, and includes a system of underground pipes/conduits, sewage pumping stations and wastewater lagoons.	SEWAGE TREATMENT FACILITY , means a use, building, structure or parts thereof, approved by the Ministry of the Environment for the treatment and disposal of domestic and industrial waste, and storm water, and includes a system of underground pipes/conduits, sewage pumping stations and wastewater lagoons.
		STOREY e) FIRST STOREY – amend definition to reflect the OBC.	Means the storey having its floor level closest to the finished grade and its ceiling at least two more than 1.8 metres above finished grade.
		STREET , add wording to address year round maintenance.	STREET , means a public right-of-way which shall be constructed and opened and improved and maintained year round and assumed by the municipality, county or province or other public road authority for public use. A street does not include a lane or any other private right-of-way.
		SWIMMING POOL , means any body of water permanently located outdoors or indoors, contained by artificial means and used and maintained for the purpose of swimming, wading, diving or bathing.	SWIMMING POOL , means any body of water permanently located outdoors or indoors, contained by artificial means and used and maintained for the purpose of swimming, wading, diving or bathing.

Zoning By-Law 66- 01 Section	ZBA Section	Existing provision/section	Proposed provision/section
Section 6.1 Accessory Uses		6.1.2 b) - Amend In any R1B, R1C, R2 or R3 Zones, all accessory buildings and structures shall be located in a rear yard or interior side yard provided it is not closer than 1.0 m (3.3 ft) to the interior or the rear lot line.	In any R1A , R1B, R1C, R2 or R3 Zones, all accessory buildings and structures shall be located in a rear yard or interior side yard provided it is not closer than 1.0 m (3.3 ft) to the interior or the rear lot line.
		6.1.2 c) - Amend Notwithstanding Section 6.1.2 b), in any R1A or ER Zone or a lot subject to the reduced lot regulations of subsection 8.5, all accessory buildings and structures shall not be located in a required front or required exterior side yard and shall not be located closer than 3.0 m (9.8 ft) to the rear or interior lot line.	Notwithstanding Section 6.1.2 b), in any R1A Zone or ER Zone or a lot subject to the reduced lot regulations of subsection 8.5, all accessory buildings and structures shall not be located in a required front or required exterior side yard and shall not be located closer than 3.0 m (9.8 ft) to the rear or interior lot line.
		6.1.3 – Height - Amend In any residential zone including a lot subject to the reduced lot regulations of Section 8.5 and in the C1- Central Commercial Zone, the height of an accessory use building or structure shall not exceed 4.5 m (14.8 ft). In all other zones the maximum height for an accessory use is the same as the main building. Notwithstanding the above provisions shall not apply to agricultural buildings such as but not limited to silos, grain bins and corn cribs as permitted in Section 8.1 and further defined in Section 6.4.	a) In any residential zone including a lot subject to the reduced lot regulations of Section 8.5 and in the C1- Central Commercial Zone, the height of an accessory use building or structure shall not exceed 4.57 m (15 ft) . In all other zones the maximum height for an accessory use is the same as the main building. The above provisions shall not apply to agricultural buildings such as but not limited to silos, grain bins and corn cribs as permitted in Section 8.1 and further defined in Section 6.4.
		6.1.3 – Height – New provision	b) On a lot subject to the reduced lot regulations of subsection 8.5, the maximum height of an accessory use, building or structure shall not exceed 6.7 m (22 ft) and shall not exceed one storey. The above provisions shall not apply to agricultural buildings such as but not limited to silos, grain bins and corn cribs as permitted in Section 8.1 and further defined in Section 6.4
		6.1.4 b) Lot Coverage - Amend Provided the maximum lot coverage is not exceeded for an accessory	6.1.4 b) – Lot Coverage Provided the maximum lot coverage is not exceeded for an accessory building or

Zoning By-Law 66- 01 Section	ZBA Section	Existing provision/section	Proposed provision/section
		building or structure, the combined maximum floor area for all accessory buildings or structures not including a hobby barn or home industry in any residential zone including a lot subject to the reduced lot regulations of Section 8.5 shall not exceed 92.9 m ² (1000.0 ft ²) ground floor area for any lot 0.4 hectares (1.0 acres) or less in size. For each additional full 0.4 hectares (1.0 acres) of lot area, an additional 9.29 m ² (100 ft ²) of ground floor area may be added to the accessory building.	structure, the combined maximum floor area for all accessory buildings or structures not including a hobby barn or home industry in any residential zone and a lot subject to the reduced lot regulations of Section 8.5 shall not exceed 185.8 m² (2000.0 ft²) ground floor area for any lot 0.4 hectares (1.0 acres) or less in size. For each additional full 0.4 hectares (1.0 acres) of lot area, an additional 41.8 m² (450 ft²) of ground floor area may be added to the accessory building, to a maximum ground floor area of 464.5 m² (5000 ft²) .
		6.1.5 - Establishment of an accessory building or use - new provision	6.1.5 c) A tarped/coverall structure when used as an accessory structure, shall be required to comply to section 6.1 accessory uses.
		6.1 - Addition of New use	6.1.7 AIR CONDITIONERS, HEAT PUMPS, POOL PUMPS, FILTERS AND HEATERS Air conditioners, heat pumps, filters and heaters are permitted in conjunction with a permitted use provided: <ul style="list-style-type: none"> a) They are not located in the front yard. b) They are located a minimum of 1m from the interior side lot line and no closer than the required exterior side yard for the main building, and, c) They are located no closer to a Residential Zone boundary than the minimum setback required for main buildings in Non-Residential Zones from Residential Zone boundaries.
Section 6.7 Day Lighting Triangle		6.7 a) –Amend daylight measurement.	a) On a corner lot, the triangular space formed by the street lines and a line drawn from a point on one street line to a point on the other street line is determined by a point measuring 9.0 m (29.5 ft) 7.5 m (24.6 ft) along the street line from the point of intersection of the said street lines.
		6.7 c) – Amend The provisions of this section shall also apply to land which abuts one or more unopened streets.	The provisions of this section shall also apply to land which abuts one or more unopened streets or lanes .

ATTENTION: Darren Jones, CBO

Dear Mr. Jones:

RE: Proposed Zoning By-law Amendment
Township of Wellington North (General Housekeeping By-law)

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the proposed zoning by-law amendment in accordance with the SVCA's mandate, and the SVCA Environmental Planning and Regulations Policies Manual, Approved May 16, 2017. The purpose and effect of the proposed amendment is to provide for Township initiated "housekeeping" amendments to the Comprehensive Zoning By-law.

Generally, the proposed zoning by-law amendment is acceptable to SVCA staff. SVCA staff recommend the following minor wording addition noted in closed brackets [closed brackets] for Section 6.32 c):

A temporary building or trailer for conducting sales of new dwelling units is permitted in any Zone [except in the NE Zone] provided the sales building or trailer is located within a development site. The sales building or trailer shall be set back 30 metres from the lot line of any existing residential use abutting the development site and parking areas associated with the sales building or trailer shall be setback 6m from any existing residential use abutting the development site.

Please be advised that SVCA staff do not have any other natural hazard concerns relating to the proposed zoning by-law amendment. Furthermore, SVCA staff do not have any natural heritage concerns relating to the proposed zoning by-law amendment.

Conclusion

The proposed zoning by-law amendment is acceptable to SVCA staff. The SVCA would appreciate receiving notice of the decision to the above referenced planning application.
