# TRISKELE SOAPS

*Created By Hali Morgan-Panuncio*

**Triskele Soaps products are made of all natural ingredients!**

**Created by Hali Morgan-Panuncio, a Mount Forest entrepreneur, her line of soaps are SLS, EDTA, PARABEN and PROPOLENE GLYCOL free. She was inspired to create her own soaps after not being able to find products that effectively aid the dry skin and eczema that her family suffered from. Seeing the amazing results found from using common home based ingredients like olive oil, lavender essential oil and coconut oil, Hali took her hobby and made a business of it.**

**Triskele Soaps is the creator of the 'Butter Tart Soap' featured on The Butter Tart Trail. Not only was Hali able to create a soap that smells like the quintessential dessert, but they look like them too! The 'crust' is made using a goat milk soap base, cinnamon and almond fragrance oil in a real tart mold. Once hardened, the filling is poured consisting of a honey soap base, cinnamon, cocoa powder, vanilla essential oil, and cinnamon essential oil. The combination of oils creates a warm butter tart scent that is almost good enough to eat!**
