

WELLINGTON NORTH
SEMPER PORRO

ENVIRONMENTAL APPROVALS APPLICATION

Type of Approval Application Required:

DESCRIPTION	FEE	UNIT	QUANTITY	SUB-TOTAL
WATER				
Watermain Form 1 Authorization	\$1,500.00	Each		\$
STORMWATER				
Storm Sewers – Adding, changing, replacing or extending., replacing or extending. Includes Standard System Components (e.g., Ditches, Swales, Culverts, Inlets, Manholes, Outlets)	\$3,000.00	Each		\$
Quality Device (i.e., Oil/Grit Separator)	\$2,500.00	Each Appurtenance		\$
Stormwater Management Facility	\$5,000.00	Each System		\$
Low Impact Development	\$3,700.00	Each		\$
SANITARY				
Sanitary (sewage) Sewer – Adding, changing, replacing or extending	\$3,000.00	Each facility or forcemain		\$
Sanitary Sewage Pumping Station or Forcemain	\$5,000.00	Each facility or forcemain		\$
Sanitary appurtenance (i.e., odour and corrosion control, etc)	\$3,000.00	Each Appurtenance		\$
Review of CLI ECA amendment Application for MECP Submission	\$1,000.00	Each system		\$
TOTAL				\$

(HST Exempt)

Addresses:	
------------	--

2. Applicant Information			
---------------------------------	--	--	--

Applicant (Legal) Name:			
Owner (Legal) Address			
Applicant Email			
Phone No:		Cell Phone:	

3. Consultant Information			
----------------------------------	--	--	--

Consultant Name:			
Consultant Address:			
Consultant Email:			
Consultant Address:			
Consultant Phone No:		Cell Phone:	
Licensed Engineer			
PEO License Number			

4. Application Fee			
---------------------------	--	--	--

The applicant submits with the application the fee in the amount of \$ _____

No assurance is given that the payment of the fee will result in approval. The application will be processed according to the policy of council.

5. Submissions			
-----------------------	--	--	--

Submissions are to be made in a Portable Document Format (PDF). Plans, specifications, documents, and other information are to be legible when printed to scale.

PDF submissions shall have layers unlocked to permit mark-ups and additional notes.

I acknowledge that I have submitted the necessary document(s) in the application package(s) for which I am requesting.

Pre-Construction Checklist

- Checklist** indicating completeness of application, shall be sent with Pre-Construction and Post-Construction packages

- Stormwater Management Plan**, including but not limited to:
 - Design Brief
 - Description of project area
 - SWM quantity & quality criteria; explanation of how they were established (Town Standards, ERCA, Ontario Water Quality Objectives or Procedure B-1-5)
 - Description of existing drainage patterns at the site and run-off outlet location(s), including the ultimate receiver(s)
 - Stormwater run-off analysis(design storms, hydrologic parameters for pre-development and post-development conditions, modeling results, pre-development and post-development peak flows and volumes)
 - Description of how the established quantity and quality controls criteria will be met
 - Design details for each component of SWM system(s), including the capacity
 - Hydraulic Design Sheets/ Calculations - Water Quality Design Features and Oil and Grit Separator Design Sheets
 - Hydraulic performance of the system verifying storm sewer capture rates and major and minor system capacities.
 - Low impact development features and ground water table
 - Proposed Monitoring Plan (once discharge begins the Town will conduct additional sampling and testing)
 - Proposed Operations and Maintenance procedures
 - Design considerations to protect drinking water

- Detailed Design Drawings/ “For Construction” Drawings** (stamped & signed by P.Eng licensed in Ontario)

- Inspection and testing plans, emergency response plan** (2 weeks prior to inspection and testing), notification of testing (5 days prior) per Design Criteria 8.1.3 and 8.1.4

- Erosion Sediment Control (ESC) plan**, and temporary ESC measures installed in advance of and maintained during any construction activity on the Authorized System. Certification by a Licensed Engineer is required for all ESC per ECA 3.10

- Completed Form SW1 (Storm Sewers/ Ditches/ Culverts)** (if applicable)
 - Part 2 Description of storm sewer/ditch/ culvert alteration
 - Part 3 Verification by Licensed Engineering Practitioner

- Completed Form SW2 (Stormwater Management Facilities)** (if applicable)
 - Part 2 Description of stormwater management facility alteration
 - Part 3 Verification by Licensed Engineering Practitioner

- Completed Form SW3 (Third Pipe Collection Systems)** (if applicable)
 - Part 2 Description of third pipe collection system alteration
 - Part 3 Verification by Licensed Engineering Practitioner

- Application Fee** included

Post – Construction

- Checklist** indicating completeness of application, shall be sent with Pre-Construction and Post-Construction packages
- Record Drawings** stamped by a P.Eng Licensed in Ontario
- All inspection and testing records** per Design Criteria 8.1.5, including but not limited to:
 - maintenance reports adhering to ESC plan and measures during construction activity; - daily engineering inspection records completed during infrastructure installation per ECA Schedule D, 3.11;
 - CCTV Inspection Records and videos;
 - Mandrel and Deflection Testing (if required based on the CCTV Video reports) per Design Criteria 8.1.5;
 - Hydrostatic Pressure testing results for forced mains per Design Criteria 8.5
 - Leakage Testing Reports per Design Criteria 8.3
- Operations & Maintenance Manual** per ECA Schedule E, 3.0
- Sampling and Monitoring Plan**
- Any Additional Requirements** as Requested by the Town from Pre-Construction Application
