

MAIN STREET (HIGHWAY 6) CONNECTING LINK REHABILITATION PROJECT (MOUNT FOREST) NOTICE OF CONSTRUCTION

July 3, 2025

The Main Street (Connecting Link – Highway 6) Rehabilitation (Mount Forest) project, in partnership with MTO through their 2024/25 Connecting Links Program with a provincial contribution of \$1,486,539.90, has been awarded to Cox Construction Limited. Cox Construction Limited, has begun preparations for the rehabilitation of Main Street, between Queen Street and Sligo Road.

KEY PLAN

The rehabilitation work includes select replacement of sewers and watermain, curb and sidewalk repairs, upgrading of intersection curb/sidewalk to meet AODA requirements, installation of a Pedestrian Crossover (PXO) at King Street, and the full resurfacing of the existing pavement. At this time, the construction schedule has not yet been determined but it may start as early as July 21, 2025, and it is expected to be completed by October 3, 2025.

Main Street will remain open to through traffic at all times, but there will be temporary lane closures that will interrupt the flow of traffic and parking. Some side streets will be closed to traffic for short durations to accommodate the planned works (e.g., for

replacement of sewers and watermain at Durham Street East and Durham Street West), and advanced notice of temporary closures will be advertised on the Township's website. Access to some driveways will be unavailable for short durations (e.g., during curb or sidewalk work), and the Contractor will provide advanced notice to affected properties. Some water customers will experience temporary daytime water shutdowns to accommodate the planned watermain work. Affected customers will be given advanced notice of the scheduled days and times when this will happen. It is noted that surface asphalt milling and surface paving operations will be taking place at nighttime between the hours of 6:00p.m. and 6:00a.m. Advance notice of nighttime work will be advertised on the Township's website.

Regarding garbage and recycling: On your designated waste and recycling collection days, please put your bags and recycling boxes at the standard roadside pick-up location by 7 a.m. If required, construction staff will pick them up and move them to a designated pick-up location as coordinated between Cox Construction Limited and the County of Wellington Solid Waste Services Division. Cox Construction Limited will return your recycling boxes to your property. Please ensure your recycling boxes are clearly marked with your civic address.

A Public Information Centre will be held at the Mount Forest Firehall, 381 Main Street North, Mount Forest, on Wednesday, July 16, 2025, from 5:00p.m. to 7:00p.m. Project plans can be viewed at <https://www.wellington-north.com/government/capital-projects>.
