

**Township of Wellington North
GROUND WATER MODELLING
Request for Proposal (RFP 2025-007)**

ADDENDUM NO. 2

This addendum has been issued to revise the tender package as follows:
The following questions have been received. Answers / Clarification follow each question:

Question 1:

In additional to the approved municipal capital budgets, has provincial funding been secured for this project?

Answer / Clarification 1:

Provincial funding has been allocated to the respective Source Protection Authorities to assist with groundwater modelling in the Township of Mapleton, Town of Minto and Township of Wellington North. The funding is part of technical work funding from the Ontario Ministry of the Environment, Conservation and Parks to support source water protection work in the Province. The amounts allocated for Town of Minto is \$80,000. The amount allocated for the Township of Mapleton and Township of Wellington North is shared with one other municipality. The total amount of that allocation is \$175,000, however, the exact division is to be determined.

Township of Wellington North will include Ground Water Modelling for Mount Forest as part of their 2026 Capital Project and as such this item has been marked provisional within the RFP.

Addendum #2 Issued: September 12, 2025

This addendum shall form part of the contract documents. The tenderer shall sign the addendum and shall submit this addendum in the same envelope as their tender. The tenderer shall acknowledge receipt of this tender on the Form of Proposal.
