

Lions Merv Weber Park Option 1

STRUCTURE

CLIMBING

TRANSFER STATION

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 2 - 12

Capacity: 1

Help all children get into the heart of the play with this transfer station. At Burke, we take play for all seriously and want children of all abilities to enjoy the benefits of playing together. The Transfer Station is a pivotal component in playground design, offering a safe and accessible space for children to transition between play structures.

BALANCING

TRANSITION STAIR

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 2 - 12

Capacity: 1

Get to the height of fun with the stairway to the heart of the play structure! Burke's Transition Stairs are a versatile and essential component of playground design, seamlessly connecting various play structures and providing safe passage for children.

CLIMBING

TERREX CLIMBER

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 2-12

Capacity: 4

Walking along a rugged trail high above the valley below provides a sense of adventure, a feeling of awe and brings an air of excitement. The Terrex Climber brings that to the play environment as a fun way for children to move around the playground while developing strength, balance, decision making and problem-solving skills. Designed with loads of color options and various climbing abilities in mind, this climber is a colorful and exciting addition to any play environment.

OVERHEAD

ATHLETIC ARCH

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 2-12

Capacity: 4

Improve upper body strength, cognitive planning and hand-eye coordination with this fun overhead event that helps children build self-esteem!

CLIMBING

POWER PIPES CLIMBER

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 5 - 12

Capacity: 4

Traversing these curved metal pipes looks easy until you try it. Then you see how much of a challenge those seemingly simple curved play structures can present in promoting lower- and upper-body strength. The Power Pipes Climber is a powerhouse of fun, encouraging children to explore, climb, and conquer new heights in a secure and exciting play environment.

CLIMBING

FORMIS CLIMBER

KEY FEATURES

Ages: 2 - 12

Capacity: 2

Engaging geometric shapes and unlimited climbing paths characterize the Formis™ collection of climbers. Named for the façade of a building and the distinctiveness each brings, Formis presents so many design options.

CLIMBING

APEX ARCH CLIMBER

KEY FEATURES

Ages: 2 - 5

Capacity: 2

Take your playground design to a new level with Burke's Apex Climbers! These climbers are the first of many new and exciting additions to Burke's Intensity® fitness play series line. Active play is promoted by the use of creative and unique entry points to Intensity and Nucleus® structures, allowing children to engage in continuous movement while developing strength, balance and coordination. Organic architectural lines provide open site lines for improved supervision while creating a fresh look.

CLIMBING

SHASTA CLIMBER

KEY FEATURES

Ages: 5 - 12

Capacity: 3

Climbing is one of the most popular events in the playspace. It's fun, exciting and adventurous. It's also extremely beneficial to child development and builds upper and lower body strength, agility, cognitive planning and cooperation skills.

PASSIVE

EVOLUTION ROOF

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 2 - 12

Capacity: 4

The Nucleus® Evolution® roofs draw your eye to its interesting colors and unique shadow patterns! Bringing us back to nature and natural shapes, these roofs are reminiscent of light filtering through leaves or tree canopies and help everyone fulfill their connection to the natural world.

PASSIVE

LEAF SEAT

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 2 - 12

Capacity: 1

A safe space, accessible and below deck for children to sit and retreat, observe play before jumping in or have conversations with their friends. Strategically placed below deck - this will surely become a cozy space for children to take a break from play!

SLIDING

VIPER II SLIDE

Burke
PLAY THAT MOVES YOU

KEY FEATURES

Ages: 5 - 12

Capacity: 4

The Viper® Slide can't be tamed, but kids love trying! Viper's exciting twisty and fast serpentine action is guaranteed to generate incredible high-energy fun and safe, healthy play.

SLIDING

VELO SLIDE

KEY FEATURES

Ages: 5 - 12

Capacity: 2

Slides have long been a playground staple and for good reason, they keep kids moving and having fun while they develop core strength and balance! The Velo™ Slide offers a fun, fast ride with a little extra drop that makes kids want to slide again and again.

IMAGINATION

NISCH CAPSULE

KEY FEATURES

Ages: 2-12

Capacity: 2

Niche Capsule™ combines cozy and restful with movement and fun to bring a new experience to the playspace. Here children have a place to rest, socialize or plan their play experience while a swaying motion contributes to a soothing sensory experience. Textured surfaces, elliptical patterns reminiscent of light filtering through tree leaves and windows bringing colors into the space offer tactile and visual stimulation in a soft and approachable way. Openings on each side offer excellent sight lines for caregivers while still providing children with a space that feels comfortable and inviting. Designed with everyone in mind, Niche Capsule has seats at transfer height, handles to make transfer comfortable and openings on both sides so children can create their own pathways into the play event.

IMAGINATION

3-IN-A-ROW PANEL

KEY FEATURES

Ages: 2 - 12

Capacity: 2

Play panels offer opportunities for all children to develop skills, have fun and spend time learning outside. 3-In-A-Row is a way to bring games to the playground and teach cooperation. The 3-in-a-Row Panel offers various play opportunities, fostering social engagement and cognitive development.

MOTION

NIDO SPINNER

KEY FEATURES

Ages: 12

Capacity: 2

The Nido™ Spinner is a soothing space at the playground where all children, including children with autism spectrum disorder (ASD) or other sensory processing differences, can go to find comfort and regroup. The cozy, pod-like design makes children feel sheltered and gives them the option to be spun around and around—an activity that's fun and developmentally rich for everyone and can be soothing for those who experience overstimulation in busy spaces. Thoughtfully designed to be an inclusive event, the Nido Spinner invites everyone inside to give it a whirl!

IMAGINATION

FUN PHONE

KEY FEATURES

Ages: 2 - 12

Capacity: 2

Chat with a friend across the playground and improve socialization and communication skills with the Burke Fun Phone!

SPINNING

Besides being just plain fun, spinning helps children develop spatial awareness, balance and coordination. Children on the autism spectrum often find the motion to be a relaxing, soothing activity that can reset them if they need time to themselves.

IMAGINATIVE PLAY

Imagination is an important part of child development. Often in play, children learn important life skills that transcend the playground. Skills such as understanding, empathy and working toward a common goal are all practiced in imaginative play.

COGNITIVE

So many life skills are learned through play! Skills such as cognitive planning, mastering new concepts, problem solving and expression are developed naturally through play events like climbing, sliding and spinning.

CLIMBING

Climbing brings adventure and challenge to the playground while providing necessary developmental benefits such as balance, agility, upper and lower body strength and decision-making skills! When children climb, they develop confidence and take age appropriate risks that help build skills that will help them throughout their lives.

PLAY VARIETY

This design offers the perfect solution for a great playspace and ensures that the necessary and age-appropriate play components are included. With various slides, climbers and spinning events, kids will be able to enhance physical fitness while having fun playing.

SLIDING

Kids love to slide but it's not just fun! Sliding provides a variety of developmental benefits, including balance, coordination, cooperation and proprioception.
