RE: TOWNSHIP OF WELLINGTON NORTH
RECONSTRUCTION OF CLARKE STREET,
ARTHUR
OUR FILE: M5986A

Dear Resident:

On behalf of the Township of Wellington North (Township), we wish to advise you that Triton Engineering Services Limited (Triton) is coordinating technical investigations to support the design of the Reconstruction of Clarke Street from Smith St (Hwy-6) to approximately 20 m north of Walton St, in Arthur. Consistent with the Township's approved 2026 capital budget, construction of the project is planned to occur during the 2026 construction season.

Upcoming technical investigations include topographic survey and photographs by staff from Triton to document existing conditions within the municipal right-of-way and facilitate the engineering design. A geotechnical investigation will also be undertaken by Saffa Engineering Inc. which will involve personnel and equipment in the roadway at various locations.

Additional upcoming work includes hydro pole relocations by Wellington North Power in the first quarter of 2026, gas main relocations by Enbridge Gas starting as early as March 16, 2026, as well as relocation of Eastlink and Bell Canada plant in Spring/Summer 2026. A Public Meeting will be scheduled in Spring 2026, following tendering and award of the project.

Thank you in advance for your co-operation on this project.

Should you have any questions, please do not hesitate to contact the undersigned.

Yours very truly,

TRITON ENGINEERING SERVICES LIMITED

Lindsay Scott, P. Eng.
